**1-2 Thessalonians**-Nijay K. Gupta 2016-07-12 In the first century, the Thessalonian church grieved deaths in their community, endured harsh persecution, and struggled with questions about the future. Paul offered them the comforts and reassurances of hope in the Messiah Jesus. But he offered far more than wishful thinking or pie-in-the-sky comfort. Paul's emphasis on hope in the Messiah Jesus involved capturing a vision of God's redeemed and just future in order to see and live faithfully today. Paul did not believe in a passive hope, but an active hope where, if the Day of the Messiah is a beacon, believers set their course and diligently move toward it. That diligence is especially captured by love for Christian brothers and sisters, commitment to honest and productive work, and obedience to the truth of the gospel of Lord Messiah Jesus.

**1,227 QI Facts To Blow Your Socks Off**-John Lloyd 2012-10-30 QI is the smartest comedy show on British television, but few people know that we're also a major legal hit in Australia, New Zealand, Israel and Africa and an illegal one on BitTorrent. We also write books and newspaper columns; run a thriving website, a Facebook page, a Twitter feed; and produce an iPhone App and a sister Radio 4 programme. At the core of what we do is the astonishing fact - painstakingly researched and distilled to a brilliant and shocking clarity. In Einstein's words: 'Everything should be as simple as possible, but not simpler.' Did you know that: cows moo in regional accents; the entire internet weighs less than a grain of sand; the dialling code from Britain to Russia is 007; potatoes have more chromosomes than human beings; the London Underground has made more money from its famous map than it has from running trains; Tintin is called Tantan in Japanese because TinTin is pronounced 'Chin chin' and means penis; the water in the mouth of a blue whale weighs more than its body; Scotland has twice as many pandas as Conservative MPs; Saddam's bunker was designed by the grandson of the woman who built Hitler's bunker; Under the Wildlife and Countryside Act of 1981, it is explicitly illegal in Britain to use a machinegun to kill a hedgehog. 1,227 QI Facts To Blow Your Socks Off will make you look at the universe (and your socks) in an alarming new way.

**In Praise of Paths**-Torbjørn Ekelund 2020-05-05 An ode to paths and the journeys we take through nature, as told by a gifted writer who stopped driving and rediscovered the joys of traveling by foot. Torbjørn Ekelund started to walk—everywhere—after an epilepsy diagnosis affected his ability to drive. The more he ventured out, the more he came to love the act of walking, and an interest in paths emerged. In this poignant, meandering book, Ekelund interweaves the literature and history of paths with his own stories from the trail. As he walks with shoes on and barefoot, through forest creeks and across urban streets, he contemplates the early tracks made by ancient snails and traces the wanderings of Romantic poets, amongst other musings. If we still “understand ourselves in relation to the landscape,” Ekelund asks, then what do we lose in an era of car travel and navigation apps? And what will we gain from taking to paths once again?

**The Brief Wondrous Life of Oscar Wao**-Junot Diaz 2008-09-04 Things have never been easy for Oscar. A ghetto nerd living with his Dominican family in New Jersey, he's sweet but disastrously overweight. He dreams of becoming the next J.R.R. Tolkien and he keeps falling hopelessly in love. Poor Oscar may never get what he wants, thanks to the Fukú - the curse that has haunted his family for generations. With dazzling energy and insight Diaz immerses us in the tumultuous lives of Oscar; his runaway sister Lola; their beautiful mother Belicia; and in the family's uproarious journey from the Dominican Republic to the US and back. Rendered with uncommon warmth and humour, The Brief Wondrous Life of Oscar Wao is a literary triumph, that confirms Junot Diaz as one of the most exciting writers of our time.

**The Story of My Life**-Helen Keller 2016-02-18 “...every one who wishes to gain true knowledge must climb the Hill Difficulty alone, and since there is no royal road to the summit, I must zigzag it in my own way. I slip back many times, I fall, I stand still, I run against the edge of hidden obstacles, I lose my temper and find it again and keep it better, I trudge on, I gain a little, I feel encouraged, I get more eager and climb higher and begin to see the widening horizon. Every struggle is a victory. One more effort and I reach the luminous cloud, the blue depths of the sky, the uplands of my desire.” HELEN KELLER was born on June 27, 1880 in Tuscumbia, Alabama. At nineteen months old an acute illness nearly took her life and left her deaf and blind. At the recommendation of Alexander Graham Bell, her parents contacted the Perkins Institute for the Blind in Boston, and Anne Sullivan was sent to tutor Helen. The story of their early years together, and of Helen’s remarkable psychological and intellectual growth, is told in The Story of My Life, which first appeared in installments in Ladies’ Home Journal in 1902. With Anne Sullivan, “Teacher,” at her side, Helen Keller graduated from Radcliffe College in 1904, an extraordinary accomplishment for any woman of her time. Helen was dedicated to helping the blind and handicapped, raising funds for the American Foundation for the Blind and lobbying for commissions for the blind in thirty states. A women’s rights activist, a Swedenborgian, a socialist, and a world-famous celebrity, Helen Keller received the Presidential Medal of Freedom and many honorary degrees. Her other books include The World I Live In (1908), Midstream: My Later Life (1929), Helen Keller’s Journal (1938), and Let Us Have Faith (1940). She died in 1968. Her burial urn is in the National Cathedral in Washington, D.C.

**All Thirteen: The Incredible Cave Rescue of the Thai Boys' Soccer Team**-Christina Soontornvat 2020-10-13 A unique account of the amazing Thai cave rescue told in a heart-racing, you-are-there style that blends suspense, science, and cultural insight. On June 23, 2018, twelve young players of the Wild Boars soccer team and their coach enter a cave in northern Thailand seeking an afternoon’s adventure. But when they turn to leave, rising floodwaters block their path out. The boys are trapped! Before long, news of the missing team spreads, launching a seventeen-day rescue operation involving thousands of rescuers from around the globe. As the world sits vigil, people begin to wonder: how long can a group of ordinary kids survive in complete darkness, with no food or clean water? Luckily, the Wild Boars are a very extraordinary "ordinary" group. Combining firsthand interviews of rescue workers with in-depth science and details of the region's culture and religion, author Christina Soontornvat—who was visiting family in Northern Thailand when the Wild Boars went missing—masterfully shows how both the complex engineering operation above ground and the mental struggles of the thirteen young people below proved critical in the life-or-death mission. Meticulously researched and generously illustrated with photographs, this page-turner includes an author’s note describing her experience meeting the team, detailed source notes, and a bibliography to fully immerse readers in the most ambitious cave rescue in history.
