The Curious Map Book -Ashley Baynton-Williams 2015-10-20 Since that ancient day when the first human drew a line connecting Point A to Point B, maps have been understood as one of the most essential tools of communication. Despite differences in language, appearance, or culture, maps are universal touchstones in human civilization. Over the centuries, maps have served many varied purposes; far from mere guides for reaching a destination, they are unique artistic forms, aides in planning commercial routes, literary devices for illuminating a story. Accuracy—or inaccuracy—of maps has been the make-or-break factor in countless military battles throughout history. They have graced the walls of homes, bringing prestige and elegance to their owners. They track the mountains, oceans, and stars of our existence. Maps help us make sense of our worlds both real and imaginary—they bring order to the seeming chaos of our surroundings. With The Curious Map Book, Ashley Baynton-Williams gathers an amazing, chronologically ordered variety of cartographic gems, mainly from the vast collection of the British Library. He has unearthed a wide array of the whimsical and fantastic, from maps of board games to political ones, maps of the Holy Land to maps of the human soul. In his illuminating introduction, Baynton-Williams also identifies and expounds upon key themes of map production, peculiar styles, and the commerce and collection of unique maps. This incredible volume offers a wealth of gorgeous illustrations for anyone who is cartographically curious.

Bringing Wine Home -Jesse Frost 2013-03-09 From a busy Manhattan wine shop to a small Kentucky farm, Bringing Wine Home tells the story of how a few unique winemakers inspired Jesse Frost to explore the drink beyond the gullet, and to reimagine wine into something anyone could make and enjoy; something anyone should. But in Book One we find it didn't come easy. As a hard-drinking son of two alcoholics, wanting to be a winemaker came with its own share of issues, and the narrative does not neglect them. Nor does it neglect to explain how someone aspiring to make wine would end up, not in the vineyards of California or Europe, but rather working on a vegetable farm in Bugtussle, Ky-on purpose. And although Bringing Wine Home is technically a book about wine, and a book because of it, it is hardly a technical wine book. It's a memoir about farming, about food, about sustainability, fermentation and unavoidably, unabashedly, love. Though more than anything, from soil to stomach, it is simply an amazing story, and wine just so happens to be where it all started.
