Final Exits-Michael Largo 2006-10-03 To die, kick the bucket, to meet your Maker, dead as a doornail, get whacked, smoked, bite the dust, sleep with the fishes, go six feet under—whatever death is called, it's going to happen. In 1789 Ben Franklin wrote, "In this world nothing is certain but death and taxes." Death remains a certainty. But how do we die? It's the enormous variety of how that enlivens final exits. According to death certificates, in 1700 there were less than 100 causes of death. Today there are 3,000. With each advance of technology, people find new ways to become deceased, often causing trends that peak in the first year. People are now killed by everything, from cell phones, washing machines, lawn mowers and toothpicks, to the boundless catalog of man—made medicines. In Final Exits the causes of death—bizarre or common—are alphabetically arranged and include actual accounts of people, both famous and ordinary, who unfortunately died that way. (Ants, bad words, Bingo, bean bag chairs, flying cows, frozen toilets, hiccups, lipstick, moray eels, road kill, starfish, and toupees are only some of the more unusual causes.)

Arranged alphabetically, nearly 6,000 entries explore every monument, building, street, park and suburb of importance, as well as events, institutions and themes relevant to the city's past glory and present vigour." "Here, rich in detail, alive with wit and well served by two indexes, is everything anyone could possibly want to know about London. For the third edition of this well-established book, the text has been extensively revised and updated, taking London into the twenty-first century. Contemporary images have been added to the more than 500 period prints, drawings and photographs, while new entries cover a host of current icons and reflect the capital's cosmopolitan and multi-cultural dimensions. Mosques and temples challenge the ubiquitous churches, and the glazed geometry of corporate power is saluted. Everything of relevance to the history, culture, commerce and government of the capital is documented. From the very first settlements through to the skyline of today, The London Encyclopaedia comprehends all that is London."--BOOK JACKET.

By Oak, Ash, & Thorn-Deanna J. Conway 1995 Take one part of the world"’s oldest spiritual system (shamanism), mix in one part of one of the world"’s most popular spiritual cultures (the Celts), and bring it up to date by blending in modern forms of shamanism. The result is one of the most amazing books you"’ll ever use, D. J. Conway"’s By Oak, Ash, & Thorn. This book is filled with information that can start you on a lifetime of study, practice, and spirituality. First, you"’ll learn about ancient and modern forms of shamanism. You"’ll discover the secrets of the three shamanic worlds, and how you can travel through these mysterious realms. You"’ll be shown how to communicate and deal with the entities and allies you meet there. You"’ll also learn about the tools that a shaman uses. The thing that makes this book unique is that it comes from the viewpoint of Celtic shamanism, and not some generalized form. As a result, the worlds are specifically Celtic in nature. The tools come from Celtic myth and lore. The fifty entities you meet are named and defined as the Faery Folk and their kin ? from the Bean sidhe (banshee) to the Will o"’ the Wisp (a faery who appears at night in lonely places carrying a lantern to confuse travellers). Almost fifty more animal allies are listed and described. You will also learn the mysteries of the vision quest and how it applies and can be used by Celtic shamans. Before starting your journey you will take a test to determine your strengths and weaknesses as a potential shaman. Other topics include: - Shamanic Healing - Soul Retrieval - Shape-shifting - Invisibility - Divination with stones, the omen stick and the Ogam alphabet - Pathworking through the three shamanic worlds - Different forms of Celtic magic - Herbs This only begins to hint at everything that you can learn from this book.
