**Nahw Meer English**-Mohammed Shamsuddin Khan Sajid 2018-06-03 What is Nahw ? It is that science which teaches us how to join Nouns, Verbs and Particles to form a complete sentence and what the vowel/harakah of the last letter of each word should be. This science started from the time of Omar bin Al-Khattab (RA) when harakahs were not used in writing. When one of the Bedouins read part of the Ayah 3 of Surah At-Tauba with a Kasrah at the very end as Rasulihi instead of Dammah as in Rasuluhu, this changed the meaning from "that Allah and His prophet are free from (dissolve their) obligations to the polytheists" to "that Allah is free from (dissolves His) obligations to the polytheists and His prophet." The Bedouin said if Allah dissolves his obligation to His prophet, so do I. After this incidence, Omar (RA) ordered that rules of Nahw be created. Why this book? First Meer Ali ibn Mohammed Al-Jurjani, the Author of Nahw Meer, does not need any introduction. His masterful book has been in use for centuries mostly in its original language of Persian and Arabic/Urdu translations and it is taught in many schools in the Indian Subcontinent and other parts of the world. I felt, that there is a need for a literal translation in today's English for those who are living in the United States of America.

The word Sarf has many meanings but as applied to Arabic grammar, is defined as changing of a root word into different forms to create an intended meaning. As you will learn in this book, 99% of Arabic words start from a three-alphabet root word, which is then changed into different forms to create different meanings. These rotations of the root word are called **تحويلات** tas-reef or inflections. Prophet Sallal-lahu Alaihi Wa Sallam asked his Ummah to learn Arabic because it is the language of the Qur'an, it is his language and it is the language of the people of Jannah. **Al-Hidayah**-Burhan al-Din al-Marghinani 2016-12-18  
The Hidayah has dominated the field of Islamic jurisprudence since the day it was written over 800 years ago. It has been the primary text used by Muslim jurists to issue authentic and reliable rulings on Islamic law according to the school of Imam Abu Hanifah (d.150AH/767CE). The Hidayah commands such an authoritative position amongst the doctors of law that the knowledge of a scholar who has not read it is not considered reliable. Around 70 huge commentaries, some spread over more than a dozen volumes, have been written on it. The number of explanatory glosses is in the thousands. Comprehensive in content and conveniently organized, with the publication of this book all previous works that discussed Islamic jurisprudence according to Hanafi law became outmoded and soon fell into disuse. If revealed books are not taken into account, never has a book received so much attention as the Hidayah. This landmark publication of The Hidayah not only has been translated in its entirety for the first time but has been done so from Arabic, the language in which it was written.

**The Arabic Language**-Anwar G. Chejne 1969  
The Arabic Language was first published in 1969. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. Arabic, with its rich literary heritage, is one of the major languages of the world. It is spoken by about one hundred million people inhabiting a wide and important area of the Middle East. Yet the language and its significant role in history are little known in the English-speaking countries except among specialists. This book will, it is hoped, help to introduce the language and demonstrate its importance to a wider audience. Professor Philip K. Hitti of Princeton University writes in the foreword: "Until recently Arabic studies in this country had been limited to the graduate level and confined to a few universities. Since World War II they have inched their way to the undergraduate curriculum of a small number of universities. But they are still top-heavy and anemic. They will so remain unless they send their roots deeper down into high schools and enlist the interest of a widening circle of nonspecialists. "Hence the value of this work by Professor Chejne. It is a commendable attempt to introduce the Arabic language, with its features and problems, to students and nonspecialists, to tell the story of its dramatic evolution from a tribal dialect to one of the few carriers of world culture, to indicate its unique relation to the religion of Islam and its role in the development of modern Arab nationalism. The book, written in a language intelligible to the layman, sums up what is already known and presents the contribution of the author."
