Dreaming the Graphic Novel-Paul Williams 2020-01-17 The term “graphic novel” was first coined in 1964, but it wouldn’t be broadly used until the 1980s, when graphic novels such as *Watchmen* and *Maus* achieved commercial

success and critical acclaim. What happened in the intervening years, after the graphic novel was conceptualized yet before it was widely recognized? *Dreaming the Graphic Novel* examines how notions of the graphic novel began to coalesce in the 1970s, a time of great change for American comics, with declining sales of mainstream periodicals, the arrival of specialty comics stores, and (at least initially) a thriving underground comix scene. Surveying the eclectic array of long comics narratives that emerged from this fertile period, Paul Williams investigates many texts that have fallen out of graphic novel history. As he demonstrates, the question of what makes a text a 'graphic novel' was the subject of fierce debate among fans, creators, and publishers, inspiring arguments about the literariness of comics that are still taking place among scholars today. Unearthing a treasure trove of fanzines, adverts, and unpublished letters, *Dreaming the Graphic Novel* gives readers an exciting inside look at a pivotal moment in the art form's development.

History and Politics in French Language

Comics and Graphic Novels-Mark McKinney 2008 With Essays by Baru, Bart Beaty, Cécile Vernier Danehy, Hugo Frey, Pascal Lefèvre, Fabrice Leroy, Amanda Macdonald, Mark McKinney, Ann Miller, and Clare Tufts In Belgium, France, Switzerland, and other French-speaking countries, many well-known comics artists have focused their attention on historical and political events. In works ranging from comic books and graphic novels to newspaper strips, cartoonists have addressed such controversial topics as French and Belgian collaboration and resistance during World War II, European colonialism and U.S. imperialism, anti-Semitism in France, the integration of African immigrant groups in Europe, and the green and feminist movements. History and Politics in French-Language Comics and Graphic Novels collects new essays that address comics from a variety of

viewpoints, including a piece from practicing artist Baru. The explorations range from discussion of such canonical works as Hergé's Tintin series to such contemporary expressions as Baru's Road to America (2002), about the Algerian War. Included are close readings of specific comics series and graphic novels, such as Cécile Vernier Danehy's examination of Cosey's Saigon Hanoi, about remembering the Vietnam War. Other writers use theoretical lenses as a means of critiquing a broad range of comics, such as Bart Beaty's Bourdieu-inspired reading of today's comics field, and Amanda Macdonald's analysis of bandes dessinées (French comic books) in New Caledonia during the 1990s. The anthology establishes the French-language comics tradition as one rich with representations of history and politics and is one of the first English-language collections to explore the subject.
