Betty Greene-Irene Howat 2017 Planes are frequent sights in our skies today. In the early years of the 20th century they were new, exciting - dangerous even. Betty Greene was one of the early women to learn to fly these amazing new machines. After World War 2, Betty helped to set up an organisation that used aircraft to support mission work - she was its first pilot. Later that organisation became Mission Aviation Fellowship. In Latin America, Africa and Irian Jaya Betty Greene flew her aircraft with courage and skill, all the while trusting God to keep her and her passengers safe.

Wings Over Shangri La-E. Janet Steiger 1995 Shangri La--a land of enchantment. No! The story location--Dutch New Guinea (now Irian Jaya, Indonesia), one of the last unexplored frontiers. In 1954, missionaries preceded government control to live & work among primitive Stone Age people with cannibalistic customs. Their lifestyle included violence & killing. The Title WINGS... is a clue to a central theme--aviation. No roads. No trails. Initial forays utilized amphibious or float planes until miniature airstrips were carved out with digging sticks & stone axes. Dramatic events related include: The 1945 crash of a C-47 - three survivors are rescued by glider from Shangri La. A recent interview with one survivor provides accurate details. Two missionaries killed by tribal carriers (from official Dutch report). Michael Rockefeller missing on the south coast November 1961. Sharks, crocodiles, or cannibals? The author & husband were eyewitnesses to many of the events, 1954 to

1962. This account is true, accurate & unembellished. John Miller, Mission Aviation in Irian Jaya writes, "...an intensely documented, detailed & accurate book. Thank you for a fine book!" Order from E. Janet Steiger, 718- 124th St S.W., #80, Everett, WA 98204. Phone: 206-348-4214, FAX: 206-347-2264. Please include fax cover sheet directing fax to E. Janet Steiger.

twenty-sixth president of the United States who embraced every challenge and made his life count.

Benjamin Franklin-Janet Benge 2005 Benjamin Franklin's life never lacked excitement and intrigue. As a printer, writer, scientist, inventor, and American statesman, this spirited Philadelphia resident continually sought to improve himself and the world he lived in. A key founding father, Franklin was the only man to sign all five of the most important documents upon which the United States was built. He also served the colonies and young nation in England and France, where he was greatly admired and regarded as a genius. Today Benjamin Franklin's wisdom and influence still reverberate through literature, science, politics, and society. (1706-1790) Heroes of History is a unique biography series that brings the shaping of history to life with the remarkable true stories of fascinating men and women who changed the course of history. Lottie Moon-Regina D. Sullivan 2011-06-03 Legendary Southern Baptist missionary Charlotte "Lottie" Moon played a pivotal role in revolutionizing southern civil society. Her involvement in the establishment of the Women's Missionary Union provided white Baptist women with an alternate means of gaining and asserting

power within the denomination's organizational structure and changed it forever. In *Lottie Moon: A Southern Baptist Missionary to China in History and Legend* Regina Sullivan provides the first comprehensive portrait of "Lottie," who not only empowered women but also inspired the formation of one of the most influential religious organizations in the United States. Despite being the daughter of slaveholders in antebellum Virginia, Moon never lived the life of a typical southern belle. Highly educated and influenced by models of independent womanhood, including an older sister who was a woman's rights advocate, an open opponent of slavery, and the first Virginian female to earn a medical degree, Moon followed her sister's lead and utilized her extensive education to successfully combine the language of woman's rights with the egalitarian impulse of evangelical Protestantism. In 1873 Moon found her true calling, however, in missionary work in China. During her tenure there she recommended that the week before Christmas be designated as a time of giving to foreign missions. In response to her vision, thousands of Southern Baptist women organized local missionary societies to collect funds, and in 1888, the Woman's Missionary Union was founded as the Southern Baptist Convention's female auxiliary for missionary work. Sullivan credits Moon's role in the establishment of the Woman's Missionary Union as having a significant impact on the erosion of patriarchal power and women's new engagement with the public sphere. Since her initial plea in 1888, the Missionary Union's annual "Lottie Moon Christmas Offering" has raised over a billion dollars to support missionary work. Lottie Moon captures the influence and culminating effect of one woman's personal, spiritual, and civic calling.

Wings for Our Courage-Stephanie H. Jed 2011-06 On January 6, 1537, Lorenzino de' Medici murdered Alessandro de' Medici, the duke of Florence. This episode is significant in literature and drama, in Florentine history, and in the history of republican thought, because Lorenzino, a classical scholar, fashioned himself after Brutus as a republican tyrant-slayer. *Wings for Our Courage* offers an epistemological critique of this republican politics, its invisible oppressions, and its power by reorganizing the meaning of Lorenzino's assassination around issues of gender, the body, and political subjectivity. Stephanie H. Jed brings into brilliant conversation figures including the Venetian nun and political theorist Archangela Tarabotti, the French feminist writer Hortense Allart, and others in a study that closely examines the material bases—manuscripts, letters, books, archives, and bodies—of writing as generators of social relations that organize and conserve knowledge in particular political arrangements. In her highly original study Jed reorganizes republicanism in history, providing a new theoretical framework for understanding the work of the scholar and the social structures of archives, libraries, and erudition in which she is inscribed.

The Book of Gutsy Women-Hillary Rodham Clinton 2019-10-01 Hillary Rodham Clinton and her daughter, Chelsea, share the stories of the gutsy women who have inspired them—women with the courage to stand up to the status quo, ask hard questions, and get the job done. She couldn't have been more than seven or eight years old. "Go ahead, ask your question," her father urged, nudging her forward. She smiled shyly and said, "You're my hero. Who's yours?" Many people—especially girls—have asked us that same question over the years. It's one of our favorite topics. HILLARY: Growing up, I knew hardly any women who worked outside the home. So I looked to my mother, my teachers, and the pages of Life magazine for inspiration. After learning that Amelia Earhart kept a scrapbook with newspaper articles about successful women in male-dominated jobs, I started a scrapbook of my own. Long after I stopped clipping articles, I continued to seek out stories of women who seemed to be redefining what was possible. CHELSEA: This book is the continuation of a conversation the two of us have been having since I was little. For me, too, my mom was a hero; so were my grandmothers. My early teachers were also women. But I grew up in a world very different from theirs. My pediatrician was a woman, and so was the first mayor of Little Rock who I remember from my childhood. Most of my close friends' moms worked outside the home as nurses, doctors, teachers, professors, and in business. And women were going into space and breaking records here on Earth. Ensuring the rights and opportunities of women and girls remains a big piece of the unfinished business of the twenty-first century. While there's a lot of work to do, we know that throughout history and around the globe women have overcome the toughest resistance imaginable to win victories that have made progress possible for all of us. That is the achievement of each of the women in this book. So how did they do it? The answers are as unique as the women themselves. Civil rights activist Dorothy Height, LGBTQ trailblazer Edie Windsor, and swimmer Diana Nyad kept pushing forward, no matter what. Writers like Rachel Carson and Chimamanda Ngozi Adichie named something no one had dared talk about before. Historian Mary Beard used wit to open doors that were once closed, and Wangari Maathai, who sparked a

movement to plant trees, understood the power of role modeling. Harriet Tubman and Malala Yousafzai looked fear in the face and persevered. Nearly every single one of these women was fiercely optimistic—they had faith that their actions could make a difference. And they were right. To us, they are all gutsy women—leaders with the courage to stand up to the status quo, ask hard questions, and get the job done. So in the moments when the long haul seems awfully long, we hope you will draw strength from these stories. We do. Because if history shows one thing, it's that the world needs gutsy women.

The New Jim Crow-Michelle Alexander 2012-01-16 Once in a great while a book comes along that changes the way we see the world and helps to fuel a nationwide social movement. The New Jim Crow is such a book. Praised by Harvard Law professor Lani Guinier as "brave and bold," this book directly challenges the notion that the election of Barack Obama signals a new era of colorblindness. With dazzling candor, legal scholar Michelle Alexander argues that "we have not ended racial caste in America; we have merely redesigned it." By targeting black men through the War on Drugs and decimating communities of color, the U.S. criminal justice system functions as a contemporary system of racial control—relegating millions to a permanent second-class status—even as it formally adheres

to the principle of colorblindness. In the words of Benjamin Todd Jealous, president and CEO of the NAACP, this book is a "call to action." Called "stunning" by Pulitzer Prize-winning historian David Levering Lewis, "invaluable" by the Daily Kos, "explosive" by Kirkus, and "profoundly necessary" by the Miami Herald, this updated and revised paperback edition of *The New Jim Crow*, now with a foreword by Cornel West, is a must-read for all people of conscience.

Judgment Misguided-Jonathan Baron 1998
People often follow intuitive principles of decision making, ranging from group loyalty to the belief that nature is benign. But instead of using these principles as rules of thumb, we often treat them as absolutes and ignore the consequences of following them blindly. In *Judgment Misguided*, Jonathan Baron explores our well-meant and deeply felt personal intuitions about what is right and wrong, and how they affect the public domain. Baron argues that when these intuitions are valued in their own right, rather than as a means to another

end, they often prevent us from achieving the results we want. Focusing on cases where our intuitive principles take over public decision making, the book examines some of our most common intuitions and the ways they can be misused. According to Baron, we can avoid these problems by paying more attention to the effects of our decisions. Written in an accessible style, the book is filled with compelling case studies, such as abortion, nuclear power, immigration, and the decline of the Atlantic fishery, among others, which illustrate a range of intuitions and how they impede the public's best interests. *Judgment Misguided* will be important reading for those involved in public decision making, and researchers and students in psychology and the social sciences, as well as everyone looking for insight into the decisions that affect us all.
