A Thesaurus of English Word Roots-Horace Gerald Danner 2014-03-27 Horace G. Danner's A Thesaurus of English Word Roots is a compendium of the most-used word roots of the English language. As Timothy B. Noone notes in his foreword: "Dr. Danner's book allows you not only to build up your passive English vocabulary, resulting in word recognition knowledge, but also gives you the rudiments for developing your active English vocabulary, making it possible to infer the meaning of words with which you are not yet acquainted. Your knowledge can now expand and will do so exponentially as your awareness of the roots in English words and your corresponding ability to decode unfamiliar words grows apace. This is the beginning of a fine mental linguistic library: so enjoy!" In A Thesaurus of English Word Roots, all word roots are listed alphabetically, along with the Greek or Latin words from which they derive, together with the roots' original meanings. If the current meaning of an individual root differs from the original meaning, that is listed in a separate column. In the examples column, the words which contain the root are then listed, starting with their prefixes, for example, dysacusia, hyperacusia. These root-starting terms then are followed by terms where the root falls behind the word, e.g., acouesthesia and acoumeter. These words are followed by words where the root falls in the middle or the end, as in such terms as bradyacusia and odyacusis.. In this manner, A Thesaurus of English Word Roots places the word in as many word families as there are elements in the word. This work will interest linguists and philologists and anyone interested in the etymological aspects of English language.

50 Speeches that Made the Modern World-

Chambers 2017-11-07 Throughout history, great speeches have produced great change. From inciting violence and asserting control to restoring peace and securing freedom, nothing has the raw emotional power of a speech delivered at the right moment, in the right place, with the right content, and the right delivery. 50 Speeches That Made The Modern World is a celebration of the most influential and thought-provoking speeches that have shaped the world we live in. With comprehensive, chronological coverage of speeches from the 20th and 21st

centuries, taken from all corners of the globe, it covers Emmeline Pankhurst's patiently reasoned condemnation of men's failure to improve ordinary women's lives in 1908 through speeches by Vladimir Lenin, Mahatma Gandhi, David Ben-Gurion, Albert Einstein, Fidel Castro, Nikita Khrushchev, Ernesto 'Che' Guevara, Martin Luther King, Malcolm X, Nelson Mandela, Benazir Bhutto, Osama Bin Laden and Aung San Suu Kyi, right up to the most compelling oratory surrounding the 2016 US Presidential elections. Through the rallying propaganda speeches during World War II to the cautious rhetoric of the Cold War period, through challenging the status quo on issues of race, gender and politics to public addresses to the masses on the issues of AIDS and terrorism, through apologies, complaints, warmongering, scaremongering and passionate pleas, this book delivers the most important speeches of the modern era and why they still remain so significant. Each speech has an introduction explaining its setting, importance and impact as well as marginal notes filling in any background information.
