The Chinese Emperor's New Clothes-Ying Chang Compestine 2017-12-26 Ming Da is only nine years old when he becomes the emperor of China, and his three advisors take advantage of him by stealing his stores of rice, gold, and precious stones. But Ming Da has a plan. With

the help of his tailors, he comes up with a clever idea to outsmart his devious advisors: He asks his tailors to make “magical” new clothes for him. Anyone who is honest, the young emperor explains, will see the clothes’ true splendor, but anyone who is dishonest will see only burlap sacks. The emperor dons a burlap sack, and the ministers can’t help but fall for his cunning trick.

lurking within Beijing's project of the century China's Belt and Road Initiative is the world's most ambitious and misunderstood geoeconomic vision. To carry out President Xi Jinping's flagship foreign-policy effort, China promises to spend over one trillion dollars for new ports, railways, fiber-optic cables, power plants, and other connections. The plan touches more than one hundred and thirty countries and has expanded into the Arctic, cyberspace, and even outer space. Beijing says that it is promoting global development, but Washington warns that it is charting a path to global dominance. Taking readers on a journey to China's projects in Asia, Europe, and Africa, Jonathan E. Hillman reveals how this grand vision is unfolding. As China pushes beyond its borders and deep into dangerous territory, it is repeating the mistakes of the great powers that came before it, Hillman argues. If China succeeds, it will remake the world and place itself at the center of everything. But Xi may be overreaching: all roads do not yet lead to Beijing.

The Chinese Communist Party as Organizational Emperor-Zheng Yongnian

2009-12-16 The Chinese Communist Party (CCP) is one of the largest and most powerful political organizations, and China's rapid rise has allowed CCP to extend its influence throughout the globe. This book explores the CCP transformation as a form of "organizational emperor", and its ability to survive potential democracy.

Under a Pig Tree-Margie Palatini 2015-04-14

The publisher and author of Under a Pig Tree seem to be having communication issues. The author has written a clear, no-nonsense history of pigs. But the publisher is sure she meant pigs. After all, what's the difference between two measly letters? What results is a hilarious illustrated history of pigs, from the earliest times ("Pigs were presented as 'medals' to the winners of the first Olympics") to the present day ("There is nothing better than enjoying a cup of tea or glass of milk with one of those famous Pig

Newtons"). The author, needless to say, is not happy about this "little mix-up" and makes her feelings very clearly known—by scrawling all over the book! With sticky notes from the publisher, angry scribbles from the author, wrinkles, and pages askew, *Under a Pig Tree* is a playful peek into a book in "midproduction" and a humorous look at the consequences of small mistakes, by industry pro Margie Palatini and up-and-coming talent Chuck Groenink.

The Ghostly Carousel-Calef Brown 2018-08-01
A zombie family reunion, a "Jekyll lantern," a giggling undertaker, a telekinetic warlock . . . are you scared yet? Sure to induce shrieks and giggles in equal measure, Calef Brown's poems present a wonderfully creepy cast of characters. Richly detailed paintings add to the frightful fun!

The Bankers' New Clothes-Anat Admati
2014-03-23 The past few years have shown that risks in banking can impose significant costs on

the economy. Many claim, however, that a safer banking system would require sacrificing lending and economic growth. *The Bankers' New Clothes* examines this claim and the narratives used by bankers, politicians, and regulators to rationalize the lack of reform, exposing them as invalid. Anat Admati and Martin Hellwig argue that we can have a safer and healthier banking system without sacrificing any of its benefits, and at essentially no cost to society. They seek to engage the broader public in the debate by cutting through the jargon of banking, clearing the fog of confusion, and presenting the issues in simple and accessible terms.

Goldilocks-Darcy Pattison 2020-10-09 Of course, you have! She's the name-fame-dame. That long-strong, bold-gold hair has earned her an international reputation. And she knows it. Goldilocks thinks she can do anything she wants. Breaking and entering? No problem. Theft? No problem. Damaging property? No problem. Until...the glitzy-see neighbors are tick-tock-talking. And they decide to take action. Will Goldilocks be able to use her fame-name to get out of trouble? Or will she wind up in folktale-jail? This fun spoof on Goldilocks is rollicking with word play: "Papa Troll clomped-stomped. 'Someone ate my meal for real. It's all woebegone-gone.'" This retelling of the folk/fairy tale creates a children's picture book that is sure to become a read-aloud classic.

weaves fact and fiction, thirteen-year-old Ming lives in a small village in Maoist China in the 1970s. His father is convinced that Emperor Qin's tomb—and the life-size terra-cotta army created to serve and protect the emperor in the afterlife—lies hidden in the hills around them. But if Ming's father doesn't prove it soon, the town's Political Officer will condemn him to the brutal labor camps. From the stories of a terra-cotta soldier who has survived through the centuries, Ming learns the history of Emperor Qin, known for building the Great Wall of China, and how and why the terra-cotta soldiers came to be. As their unlikely friendship develops, Ming experiences the mysterious tomb firsthand, braving deadly traps and witnessing the terra-cotta army in action. Most importantly, he comes to see how he can save both the terra-cotta soldiers and his father from the corrupt Political Officer and his Communist cronies. The book is illustrated with photographs of Communist Chinese village life in the 1970s, the Great Wall, and, of course, the excavated tomb with its many terra-cotta soldiers. It also features a special

recipe from the story. Praise for Secrets of the Terra-Cotta Soldier "Historical photos and Indiana Jones-style adventure enrich this tale of an unusual meeting between the Qin Dynasty and the 20th century." --Kirkus Reviews "Despite the hardships, both courageous characters work to uphold their respective duties: Shi to protect the tomb and Ming to protect the cultural legacy of China's people. With archival art, recipes, and end notes, this title is sure to be a hit in the classroom." --Booklist

China's First Emperor and His Terracotta Warriors-Frances Wood 2008-06-10 Unifier or destroyer, law-maker or tyrant? China's First Emperor (258-210 BC) has been the subject of debate for over 2,000 years. He gave us the name by which China is known in the West and, by his unification or elimination of six states, he created imperial China. He stressed the rule of law but suppressed all opposition, burning books and burying scholars alive. His military achievements are reflected in the astonishing

terracotta soldiers—a veritable buried army—that surround his tomb, and his Great Wall still fascinates the world. Despite his achievements, however, the First Emperor has been vilified since his death. China's First Emperor and His Terracotta Warriors describes his life and times and reflects the historical arguments over the real founder of China and one of the most important men in Chinese history.

Why the Emperor's New Clothes are Not Made in Colombia-David Morawetz 1981 The key aim of this study is to learn about the reasons for the relative poor performance of Latin America (not just Colombia) in exporting manufactures (not just clothing) . The study attempts to answer four central questions: 1) Why did Colombia's clothing exports, which had never exceeded \$1 million until 1970, climb suddenly to over \$50 million in 1974?; 2) Why, after 1974, did the country's exports of clothing to the United States and Europe begin steadily to decline?; 3) Why is it that Colombia has been so much less successful at exporting garments to date than Hong Kong, Korea, and Taiwan?; and 4) more generally, what can be learned from Colombia's experience with clothing exports about the reasons Latin American nations have been less successful at exporting most types of manufactured goods than Hong Kong, Korea, and Taiwan? The study is based on interviews conducted with: managers, or export managers, of thirty Colombian firms that export or have exported clothing; directors of full- or part-time

foreign buying offices for clothing that were located in Bogota; Colombian foreign trade officials; and executives of U.S. corporations that import or have imported clothing from firms in the sample. The study analyzes in depth the effects of price and nonprice determinants of export success, and based on the problems identified with the clothing industry, it offers policy options for the Colombian government.

Verse Going Viral-Heather Inwood 2014

between Obama's original vision and reality, Paul Street uniquely measures Obama's record against the expectations of the truly progressive agenda many of his supporters expected him to follow. Taken together, the list of Obama's weakened policies is startling: his business-friendly measures with the economy, the lack of support for the growing mass of unemployed and poor, the dilution of his health reform agenda, the passage of a record-setting Pentagon budget, and escalation of US military violence in Afghanistan, Pakistan, Yemen, and Somalia. Street's account reveals these and many other indications of how deeply beholden Obama is to existing dominant domestic and global hierarchies and doctrines.

The Empire's New Clothes-Philip Murphy
2018-08-01 In the wake of Brexit, the Commonwealth has been identified as an important body for future British trade and diplomacy, but few know what it actually does. How is it organized and what has held it together for so long? How important is the Queen's role as Head of the Commonwealth? Most importantly, why has it had such a troubled recent past, and is it realistic to imagine that its fortunes might be reversed? In *The Empire's New Clothes*,? Murphy strips away the gilded self-image of the Commonwealth to reveal an irrelevant institution afflicted by imperial amnesia. He offers a personal perspective on this complex and poorly understood institution, and asks if it can ever escape from the shadow of the British Empire to become an organization based on shared values, rather than a shared history.
