Angry-Savina Collins 2017-04-01

The Mealworm Diaries-Anna Kerz 2009-04-01 Mealworms are small creatures that live in dark secret places. Jeremy is a bit like that when he leaves his home in rural Nova Scotia and moves to Toronto with his mother. Lots of things keep him from enjoying his new life, but the worst is his science partner, Aaron, who is more annoying than sand in a bathing suit. Jeremy is also burdened by the secret he carries about the motorcycle accident that injured him and killed his father. Although Jeremy is haunted by his past, he starts to feel at home in Toronto when he realizes he has some skills he can share with his classmates. And when his mealworm project yields some surprising results, Jeremy is finally able to talk about his part in the fatal accident.

Atlas for the Caribbean-Collins Maps 2017-09-18 With comprehensive coverage of the Caribbean islands, gulfs and bays this atlas focuses on accurate mapping of all the Caribbean countries. Thematic maps of individual countries and the Caribbean region address topics specific to the syllabus. This completely new Collins Carribean Student Atlas is created for the requirements of CSEC Geography students and is a vital tool for all students, with up-to-date reference and thematic mapping, useful statistics and an extensive index. The Atlas has been specifically designed for CSEC students, however its well-researched content and uncluttered design makes it easy for all student use. Topics include population, climate, economy, industry, trade, tourism, history and the environment. All maps are created using the latest statistical information available. High quality satellite imagery, which has been selectively used within the special topic or study areas, supports data on the maps and is used to illustrate key environmental issues. Up-to-date data aids students wishing to create their own graphics to support individual projects.

The Knot Book-Colin Conrad Adams 2004 Knots are familiar objects. We use them to moor our boats, to wrap our packages, to tie our shoes. Yet the mathematical theory of knots quickly leads to deep results in topology and geometry. The Knot Book is an introduction to this rich theory, starting from our familiar understanding of knots and a bit of college algebra and finishing with exciting topics of current research. The Knot Book is also about the excitement of doing mathematics. Colin Adams engages the reader with fascinating examples, superb figures, and thought-provoking ideas. He also presents the remarkable applications of knot theory to modern chemistry, biology, and physics. This is a compelling book that will comfortably escort you into the marvelous world of knot theory. Whether you are a mathematics student, someone working in a related field, or an amateur mathematician, you will find much of interest in The Knot Book.

Philip's Infant School Atlas-David Wright 2019-06-11 - The 3rd edition of Philip's best-selling atlas for 5 to 7-year olds - Ideal for teaching Key Stage 1, helping to cover geography, history, science, citizenship and literacy requirements - Written by experts Professor David Wright and Rachel Noonan - Published in association with the Royal Geographical Society - 50 pages of clear, child-friendly maps showing our world today - Countries brought to life with flags, illustrations and photos - Bold text, simple words and short sentences to encourage reading skills - Starts with the Earth as a Planet then zooms into each of the world's regions with maps and illustrations - Numbered balloons on each map link to photos of real place Fully revised and updated, the new edition Philip's Infant School Atlas is intended for children in the early stages of reading, aged between 5 and 7 years old, with simple text to explain what is happening on the maps and illustrations to the young children. The atlas contents have been designed to be compatible with National Curriculum Key Stage 1 expectations. Clear, child-friendly maps are combined with fascinating photographs and facts about the world to provide essential geographical information for young children. 'Balloons' link photos of real places to each map. Guidance is given at the beginning of the atlas on how to use the maps, encouraging the early development of map skills and knowledge of the world. An index to the maps plus an illustrated glossary complete the atlas. Each colourful spread is illustrated with fascinating colour photographs and packed with fact boxes, curiosities, flags, stamps and simple quiz questions. Philip's Infant School Atlas is both fun to use and easy to understand. The text is simple and uncomplicated, and will encourage early reading skills to develop in the children.

UK in Maps-Stephen Scoffham 2019-01-29 Collins UK in Maps is a multi-topic atlas of the UK, which introduces the most relevant topics to reflect the Geography Key Stage 2-3 requirements of the National Curriculum. Formerly published as Collins Keystart UK Atlas, this collection of maps can be used to investigate different themes and topics. It tells a story in maps, diagrams, charts, words and photographs each of which presents information to compare and examine. We live on a remarkable planet and this atlas helps us to make sense of the UK today and understand how things came to be as well as how they might change in years to come. Suggested activities on each spread encourage users to explorer further.
