| <b>Cunningham's Encyclopedia of Magical Herbs</b> -Scott Cunningham 2012-04-08 Do you work magic with herbs? Do you use them in spells, for talismans or simply use their innate powers? If you don't have Cunningham's Encyclopedia of Magical Herbs, you need to get it right away. This book has become a classic in its field. Paul Beyerl, a respected author on herbs calls it "...an essential reference book by students of herbalism and magick alike ... Scott's personable charm touches every page... I highly recommend this book." And Jeanne Rose, famous author of books on herbs and developer of an herbal course says "I love books like this ... It is accessible, easy to read, and with its encompassing index (all too often neglected), simple to use as well." Over 200,000 people already have this book and use it frequently. In this edition of the book (it's expanded and revised on the 15th anniversary of original publication) you will find the magical properties and folklore of over 400 herbs! You'll also find lists of herbs based on their magical powers, their genders, their planetary rulers, and more. Perhaps the most important list is the folk name cross-reference. With that information, when a recipe calls for "bramble," you'll know it needs blackberry. Or if the magic calls for "enebro," you'll know you that is juniper. The main part of this book is the listings of the herbs. Each one includes names, associations, and magical attributions. Violets can be used for protection, luck, love, and more. Primrose is for protection and love. Garlic is for protection, healing, exorcism, lust, and prevention of theft. This book is considered a classic. It is probably consulted more than any other book on this subject. If you want to learn the secrets of magical herbs, this book is a must!  |

| <b>Classrooms that Work</b> -Patricia Marr Cunningham 2003 Literacy Education for all students -- from the authors teachers trust! Integrates phonics and literature-based reading and process writing instruction for a balanced approach to teaching literacy. Contains innovative ideas for supporting the most at risk students. Emphasizes the integration of literacy with science and social studies instruction. Discusses strategies and techniques for fostering children's use of decoding and comprehension strategies, and includes workable, practical strategies and activities to use in the classroom. Includes a variety of whole-class and small group plans which teachers use to provide support for struggling readers and challenges for advanced readers. Found in a new Chapter on Multi-level instruction (ch. 5) . Celebrated authors Patricia Cunningham and Dick Allington bring the issue of literacy education to the fore as they discuss an integrative approach to literacy-based on the simple but true idea that the more children read and write, the better they will read and write. Patricia M. Cunningham is a professor of Education at Wake Forest University. She has authored and co-authored several books promoting literacy, including Phonics They Use: Words For Reading And Writing, Reading And Writing In Elementary Classrooms: Strategies And Observations, Schools That Work: Where All Children Read and Write, and Classrooms That Work: They Can All Read And Write. Richard L. Allingtonis the Fien Distinguished Professor of Education at the University of Florida, Gainesville. He was a co-recipient of the Albert J. Harris Award from the International Reading Association for his"contributions to the better understanding of reading and learning disabilities." Dick is also a past president of the National Reading Conference and has been elected to membership in the Reading Hall of Fame. |
