African Americans and US Popular Culture -Kevern Verney 2013-06-17 This volume is an authoritative introduction to the history of African Americans in US popular culture, examining its development from the early nineteenth century to the present. Kevern Verney examines: * the role and significance of race in all major forms of popular culture, including sport, film, television, radio and music * how the entertainment industry has encouraged racism through misrepresentations and caricatured images of African Americans. African Americans have made a unique contribution to the richness and diversity of US popular culture. Rooted in African society and traditions, black slaves in America created a dynamic culture which continues to evolve. Present day hip-hop and rap music are still shaped by the historical experience of slavery and the ongoing will to oppose oppression and racism. Any student of African-American history or cultural studies will find this a fascinating and highly useful book.
Encyclopedia of Dinosaurs - 2010-07-01 Categorizes and describes dinosaurs based on their eating habits, physical characteristics, and habitats, along with sections about their predecessors and possible reasons for their extinction.
