Encyclopedia of the Human Body-Richard Walker 2004 Get under your own skin and become a biology expert with this exciting and original encyclopedia. Packed with awesome illustrations, photographs and diagrams to help you make sense of even the most complicated systems in the human body. Easy-to-use and great for projects

Encyclopedia of the Human Body-Richard Walker 1999-09-01 This informative and activity-filled reference introduces younger children to human biology in a lively and accessible way. The book's thematic structure makes it easy for young readers to understand the various systems and organs that make up the body. Dozens of activities and experiments, including - Keeping a food diary (to analyze diet) - provide children with the opportunity to reinforce newly learned information. Full-color spreads address the questions that fascinate children, such as: What are we made of?, Why do we need to sleep?, and How do we breathe? A reference section at the back of the book includes a glossary, an index, and an 'Amazing facts' section. Special Features: Over 1,000 appealing, colorful photographs and illustrations. Clear and easy-to-understand definitions. Related activities and projects. Vocabulary carefully chosen for the 5-8 yr. reading level. Cross-references encourage further exploration.

Encyclopedia of Education and Human Development-Stephen J. Farenaga 2015-07-17 This comprehensive and exhaustive reference work on the subject of education from the primary grades through higher education combines educational theory with practice, making it a unique contribution to the educational reference market. Issues related to human development and learning are examined by individuals whose specializations are in diverse areas including education, psychology, sociology, philosophy, law, and medicine. The book focuses on important themes in education and human development. Authors consider each entry from the perspective of its social and political conditions as well as historical underpinnings. The book also explores the people whose contributions have played a seminal role in the shaping of educational ideas, institutions, and organizations, and includes entries on these institutions and organizations. This work integrates numerous theoretical frameworks with field based applications from many areas in educational research.

First Encyclopedia of History-Fiona Chandler 2011 This new edition introduces young readers to the wonders of the past. Filled with historical information, from the first people, farmers, cities and civilisations all the way to the World Wars and the modern day, this text answers such questions as 'what were the pyramids for?' and 'who lived in the Forbidden City?'

Desk Encyclopedia of Human and Medical Virology-Brian W.J. Mahy 2010-05-21 This volume contains 82 chapters that provide detail and understanding to the fields of human and medical virology. The first section describes general features of common human viruses with specialized chapters related to HIV/AIDS. The volume goes on to describe exotic virus infections, including one now eradicated virus (smallpox) and some now controlled by vaccination such as yellow fever. Concepts of medical virology are further developed with entries on viruses associated with oncogenesis and selections of interest to medical virology. The most comprehensive single-volume source providing an overview of virology issues related to human and medical applications Bridges the gap between basic undergraduate texts and specialized reviews Concise and general overviews of important topics within the field will help in preparation of lectures, writing reports, or drafting grant applications

Encyclopedia of Human Evolution and Prehistory-Joanna A Manning 1988

First Encyclopedia of Science-Rachel Firth 2011-02-01 Introduces major topics in the sciences, and suggests related activities.

International Encyclopedia of Human Geography- 2009-07-16 The International Encyclopedia of Human Geography provides an authoritative and comprehensive source of information on the discipline of human geography and its constituent, and related, subject areas. The encyclopedia includes over 1,000 detailed entries on philosophy and theory, key concepts, methods and practices, biographies of notable geographers, and geographical thought and praxis in different parts of the world. This groundbreaking project covers every field of human geography and the discipline's relationships to other disciplines, and is global in scope, involving an international set of contributors. Given its broad, inclusive scope and unique online accessibility, it is anticipated that the International Encyclopedia of Human Geography will become the major reference work for the discipline over the coming decades. The Encyclopedia will be available in both limited edition print and online via ScienceDirect - featuring extensive browsing, searching, and internal cross-referencing between articles in the work, plus dynamic linking to journal articles and abstract databases, making navigation flexible and easy. For more information, pricing options and availability visit http://info.sciencedirect.com/content/books/ref_works/coming/ Available online on ScienceDirect and in limited edition print format Broad, interdisciplinary coverage across human geography: Philosophy, Methods, People, Social/Cultural, Political, Economic, Development, Health, Cartography, Urban, Historical, Regional Comprehensive and unique - the first of its kind in human geography

The Usborne First Encyclopedia of Our World-Felicity Brooks 2005 Pictures accompanied by simple text explore the planet Earth, including day and night, weather, seasons, rocks, mountains, oceans, deserts, the Arctic, rainforests, moon, and space.

International Encyclopedia of Ergonomics and Human Factors, Second Edition - 3 Volume Set-Waldemar Karwowski 2006-03-15 The previous edition of the International Encyclopedia of Ergonomics and Human Factors made history as the first unified source of reliable information drawn from many realms of science and technology and created specifically with ergonomics professionals in mind. It was also a winner of the Best Reference Award 2002 from the Engineering Libraries Division, American Society of Engineering Education, USA, and the Outstanding Academic Title 2002 from Choice Magazine. Not content to rest on his laurels, human factors and ergonomics expert Professor Waldemar Karwowski has overhauled his standard-setting resource, incorporating coverage of tried and true methods, fundamental principles, and major paradigm shifts in philosophy, thought, and design. Demonstrating the truly interdisciplinary nature of this field, these changes make the second edition even more comprehensive, more informative, more, in a word, encyclopedic. Keeping the format popularized by the first edition, the new edition has been completely revised and updated. Divided into 13 sections and organized alphabetically within each section, the entries provide a clear and simple outline of the topics as well as precise and practical information. The book reviews applications, tools, and innovative concepts related to ergonomic research. Technical terms are defined (where possible) within entries as well as in a glossary. Students and professionals will find this format invaluable, whether they have ergonomics, engineering, computing, or psychology backgrounds. Experts and researchers will also find it an excellent source of information on areas beyond the range of their direct interests.

The International Encyclopedia of Human Sexuality-Patricia Whelehan 2015-04-22 This Encyclopedia is a comprehensive A-Z reference with over 500 entries that define sexuality from a broad biocultural perspective and show the diversity of human sexual behavior and belief systems. * Contains entries ranging from short definitions of scientific, clinical, cultural, and colloquial terms to extended explorations of major concepts * Covers 13 key areas of content, from clinical medicine and body modification to the language of sexuality and the history of sexology * Serves as an essential resource for students, scholars, and researchers with contributions from an international team of top scholars and practitioners 3 Volumes www.encyclopediaofhumansexuality.com

Encyclopedia of Human Development-Neil J. Salkind 2005-10-14 The Encyclopedia of Human Development is the first comprehensive, authoritative, and informative reference work that presents state-of-the-art research and ready-to-use facts from the fields of psychology, individual and family studies, and education in a way that is not too technical. With more than 600 entries, this three-volume Encyclopedia covers topics as diverse as adolescence, cognitive development, education, family,

gender differences, identity, longitudinal research, personality development, prenatal development, temperament, and more.

Encyclopedia of Human Services-Howard Rosenthal 2014-07-02 Dr. Howard Rosenthal, author of the best-selling counseling exam book of all time, the Encyclopedia of Counseling, has now created the Encyclopedia of Human Services: Master Review and Tutorial for the Human Services-Board Certified Examination (HS-BCPE). Helpers can read this book to snare the Human Services-Board Certified Practitioner (HS-BCP) credential to take their career to the next level! Dr. Rosenthal's unique, reader-friendly style actually makes exam prep enjoyable! Reads like a novel, but imparts information like a graduate text. Who else wants to say, "I passed!?"

The Encyclopedia of Human Development and Education-R.M. Thomas 1990-04-12 This Encyclopedia is a collection of 100 articles which examine various theories and aspects of human development and their significance for education, child raising, and counselling practices throughout the world.

Usborne First Encyclopedia of the Human Body-Fiona Chandler 2004 Presents information about the different parts and functions of the human body, with Internet links for further information.

Encyclopedia of Human Services and Diversity-Linwood H. Cousins 2014-09-05 Encyclopedia of Human Services and Diversity is the first encyclopedia to reflect the changes in the mission of human services professionals as they face today's increasingly diverse service population. Diversity encompasses a broad range of human differences, including differences in ability and disability, age, education level, ethnicity, gender, geographic origin, religion, sexual orientation, socioeconomic class, and values. Understanding the needs and problems of Asian Americans, Hispanic Americans, the deaf, the blind, the LGBT community, and many other groups demands an up-to-date and cutting-edge reference. This three-volume encyclopedia provides human services students, professors, librarians, and practitioners the reference information they need to meet the needs of an increasingly diverse population. Features: 600 signed entries are organized A-to-Z across three volumes. Entries, authored by key figures in the field, conclude with cross references and further readings. A Reader's Guide groups related articles within broad, thematic areas, such as aging, community mental health, family and child services, substance abuse, etc. A detailed index, the Reader's Guide, and cross references combine for search-and-browse in the electronic version. A helpful Resource Guide guides students to classic books, journals, and web sites, and a glossary assists them with the terminology of the field. Available in both print and electronic formats, Encyclopedia of Human Services and Diversity is an ideal reference for students, practitioners, faculty and librarians.

International Encyclopedia of Housing and Home- 2012-10-09 Available online via SciVerse ScienceDirect, or in print for a limited time only, The International Encyclopedia of Housing and Home is the first international reference work for housing scholars and professionals, that uses studies in economics and finance, psychology, social policy, sociology, anthropology, geography, architecture, law, and other disciplines to create an international portrait of housing in all its facets: from meanings of home at the microscale, to impacts on macro-economy. This comprehensive work is edited by distinguished housing expert Susan J. Smith, together with Marja Elsinga, Ong Seow Eng, Lorna Fox O'Mahony and Susan Wachter, and a multi-disciplinary editorial team of 20 world-class scholars in all. Working at the cutting edge of their subject, liaising with an expert editorial advisory board, and engaging with policy-makers and professionals, the editors have worked for almost five years to secure the quality, reach, relevance and coherence of this work. A broad and inclusive table of contents signals (or testifies to) detailed investigation of historical and theoretical material as well as in-depth analysis of current issues. This seven-volume set contains over 500 entries, listed alphabetically, but grouped into seven thematic sections including methods and approaches; economics and finance; environments; home and homelessness; institutions; policy; and welfare and well-being. Housing professionals, both academics and practitioners, will find The International Encyclopedia of Housing and Home useful for teaching, discovery, and research needs. International in scope, engaging with trends in every world region The editorial board and contributors are drawn from a wide constituency, collating expertise from academics, policy makers, professionals and practitioners, and from every key center for housing research Every entry stands alone on its merits and is accessed alphabetically, yet each is fully cross-referenced, and attached to one of seven thematic categories whose 'wholes' far exceed the sum of their parts

Encyclopedia of Insects-Vincent H. Resh 2009-07-22 Awarded Best Reference by the New York Public Library (2004), Outstanding Academic Title by CHOICE (2003), and AAP/PSP 2003 Best Single Volume Reference/Sciences by Association of American Publishers' Professional Scholarly Publishing Division, the first edition of Encyclopedia of Insects was acclaimed as the most comprehensive work devoted to insects. Covering all aspects of insect anatomy, physiology, evolution, behavior, reproduction, ecology, and disease, as well as issues of exploitation, conservation, and management, this book sets the standard in entomology. The second edition of this reference will continue the tradition by providing the most comprehensive, useful, and up-to-date resource for professionals. Expanded sections in forensic entomology, biotechnology and Drosophila, reflect the full update of over 300 topics. Articles contributed by over 260 high profile and internationally recognized entomologists provide definitive facts regarding all insects from ants, beetles, and butterflies to yellow jackets, zoraptera, and zygentoma. * 66% NEW and revised content by over 200 international experts * New chapters on Bedbugs, Ekbon Syndrome, Human History, Genomics, Vinegaroons * Expanded sections on insect-human interactions, genomics, biotechnology, and ecology * Each of the 273 articles updated to reflect the advances which have taken place in entomology research since the previous edition * Features 1,000 full-color photographs, figures and tables * A full glossary, 1,700 cross-references, 3,000 bibliographic entries, and online access save research time * Updated with online access

First Encyclopedia of the Human Body-Richard Walker 1999 What is skin for? Why do we need to eat and drink? How does the eye see? What care do babies need? What does a bone do? Children will find the answers to these challenging questions in this perfect introduction to the human body.'

Encyclopedia of World Problems and Human Potential-Union of International Associations 1994 The destruction of wildlife habitats ... organized crime ... AIDS ... illiteracy ... acid rain -- these are among the 130,000 topics documented and discussed in the new edition of the Encyclopedia. But its truly unique goal is to present this complex set of issues in ways that facilitate an organized response. To this end, the book also focuses on the complex relationship between problems and society's own ideological relationship with these problems. How do human priorities and perceptions aggravate or enable problems? What are the established and alternative responses? The Encyclopedia contains over 158,000 cross-references between entries, an extensive 91,000 practical key term index, bibliographies, and full cross-referencing to the Yearbook of International Organizations. For anyone concerned with the world community, here are the means to explore and participate in today's most crucial endeavors. Volume 1, World Problems, presents diverse perspectives on the nature, origin, and incidence of each issue, delving beneath news reports and official pronouncements to reveal subtle causative nuances such as psychological outlook, political inaction, scapegoating, and cover-ups.

First How Things Work Encyclopedia-DK 2019-07-04 All the most important science topics for kids, from magnets and sound waves to flight and search engines, are simply explained in this fun and informative illustrated STEM book for children studying KS1 and KS2 subjects. First How Things Work Encyclopedia covers everything children aged 5-9 need to know. What makes rockets go? How does electricity work? Why do we sometimes see rainbows in the sky? This book follows the curriculum for Key Stages 1 and 2 and provides a strong foundation for science and STEM learning through the rest of the school years. This is the perfect homework help ebook to support children as they begin to learn about the inner workings of the world around them. It introduces exciting areas of science that will get kids hooked on learning about how things work, including levers, light bulbs, engines, and roller-coasters. This book sits in DK's popular First Reference series, which is perfect for kids who want to explore the world around them.

Picturepedia-DK 2020-10-13 Science and technology, nature, geography, culture, sports and hobbies, and history all combine in this mind-blowing visual encyclopedia. From incredible insects and musical instruments to spacecraft and prehistoric life, and from art and earthquakes to American football and dogs, Picturepedia gives you a world of information on every page. Did you know that more than half of the human body's weight is water and that a koi carp can live for more than 200 years? Or how about there being more than 20,000 islands in the Pacific Ocean, or that Turkey eats the most bread, with each person getting through 104.6 kg (230.5 lb) of it per year? First published in 2015, Picturepedia has been revamped into a more thrilling edition that will take you on a visual odyssey. This brilliant book is crammed with stunning photographs, gripping information, and explanatory diagrams that allow for fascinating discoveries. New and updated and jam-packed with thousands of pictures and fascinating facts about science, nature, culture, sports, and history, Picturepedia is the ultimate visual encyclopedia.

With additional focus on changes to the environment, it will inspire younger readers to think about their own place in the world. With superb artwork and straightforward text, plus all the exciting First Reference features such as buttons and quizzes, the DK First Earth Encyclopedia makes it all simple to understand.

Humans and Space- 2018-08-28

The World Book Encyclopedia- 1957

The International Encyclopedia of Anthropology, 12 Volume Set-Hilary Callan 2018-08-20 The International Encyclopedia of Anthropology is the most complete reference resource for the field of anthropology and interrelated areas, providing an authoritative and expert overview of the concepts, research, and techniques that together define the discipline. Under the guidance of Editor-in-Chief Hilary Callan - former director of the Royal Anthropological Institute (2000-2010) - and fourteen internationally-respected voices acting as Associate Editors, the Encyclopedia features contributions from a team of over 800 international scholars making this a work of unparalleled depth and breadth of knowledge. Over 1,000 entries, ranging from concise summaries to longer writings, present the reader with in-depth discussions of hundreds of key topics, including: ecology, human evolution, gender, health, language and education, kinship, politics, and power, as well as biographical entries of many of the world's most influential founding anthropologists. Organized alphabetically and written for both the specialist and the general reader, the Encyclopedia is a landmark reference resource for students and scholars engaged within the broad and dynamic field of anthropology, and those studying and working within the related disciplines of psychology, medicine, religious studies, and sociology. This work is also available as an online resource at www.encyclopediaofanthropology.com.
