### List of firsts in aviation - Wikipedia

- First manned glider flight: was made by an unnamed boy in an uncontrolled glider launched by George Cayley in 1853.
- First confirmed manned powered flight: was made by Clément Ader in an uncontrolled monoplane of his own design, in 1890.

### First Airplane Flies - HISTORY

## History of the First Airplane - First Flight Centennial

The Wright brothers officially became the first team to fly an airplane with a pilot in December, 1903. The first flight lasted for 12 seconds and was a distance of 123 feet. This was one of three flights that were successful for the brothers that day.

### History Faceoff: Who Was First in Flight? - HISTORY

14/12/2016 · While the Wright Brothers are commonly thought to have been the first to fly an airplane, some believe the honor rightly belongs to two other pioneering aviators. ...

### 1903-The First Flight - Wright Brothers National Memorial

14/04/2015 · Wilbur won the coin toss, but lost his chance to be the first to fly when he oversteered with the elevator after leaving the launching rail. The flyer, climbed too steeply, stalled, and dove into the sand. The first flight would have to wait on repairs. December 17, 1903.

### History of aviation - Wikipedia

Italian inventor Tito Livio Burattini, invited by the Polish King Władysław IV to his court in Warsaw, built a model aircraft with four fixed glider wings in 1647. Described as "four pairs of wings attached to an elaborate 'dragon'", it was said to have successfully lifted a cat in 1648 but not Burattini himself. He promised that "only the

most minor injuries" would result from landing the craft. His "Dragon Volant" is considered "the most elaborate and sophisticated aeroplane to be built before the 19th Century".
