Dominiques and Lace Wyandotte's are black, or dark grey, with speckles of white. They make nice fat birds, and Rhode Island Reds and Production Reds remind you of the big fat hens on the Disney version of Robin Hood. Bantam breeds are miniature versions of the original sized breeds so people who want smaller birds often choose the "banties." Some people choose their birds because they are exotic looking. Silkies have a puff of feathers on top of their heads that make them appear like they are wearing a hat, and some birds have feathers on their legs, or feathers on their feet." Year of the Chick-Romi Moondi 2014-04-21 [Book 1 in the "Year of the Chick" series. There's a bit of a cliffhanger to end this book, but the sequel addresses any unanswered questions] An awkward family homecoming at Christmas. A humiliating public weigh-in, with two judging parents as the audience. The announcement of a deadline for arranged marriage doom. And that's just the first two chapters. In "Year of the Chick," Romi Narindra must find love before her parents find her a husband (a seemingly absurd concept that's the norm in many cultures). To escape her fate, Romi wades through the waters of secret-dating, where self-consciousness is at an all-time high, and experience at an all-time low. It's the sort of thing that would turn almost anyone into a man-crazy freak with romance tunnel-vision, and that's exactly what happens to her. All the while, a lack of inspiration in her corporate job leads Romi to her love of writing, in what quickly becomes a man-quest play-by-play. From whiskey-breath scum bags to uni-brow creeps and everything in between, Romi and her wingmen come up empty time after time. And that's when she meets a fellow writer. On the Internet. So will it be arranged marriage doom, or an Internet affair that's not as creepy as "To Catch a Predator"? Time will tell in the "year of the chick," a twelve-month quest to find love. Tick-tock. ----- "Year of the Chick" is book 1 in a series, and the sequel "Last-Minute Love" is available now! LENGTH: 75,000 words or 288 pages DISCLAIMER: this book contains profanities, blunt accounts of the dating scene, and cringe-worthy awkward family moments (free,freebie,chickit,love,romance,romantic comedy,funny,humor,humour,long distance,multicultural,marriage,dating,relationships)

Mother Goose Rhymes: A Literature Unit-Judy Nyberg 2008-09-01 Reading and writing are the most important skills a child acquires during his or her lifetime—and it all begins in the early childhood classroom, where creative play, discovery and time to explore are at the heart of a developmentally appropriate and child-centered curriculum. Striking a balance between these often competing priorities can challenge even the most experienced educator.

Here, Hold My Chicken!-Julian Serles 2016-03-07 The main reason I am writing yet another book about chickens is because this book will discuss some very important points that were never presented to us in any book or Internet information we came across:-The reality of the responsibility you are taking on by inviting chickens to live with you.-What happens when a chicken gets sick?-What is a shell-less egg and is my chicken going to die?-Can I have a garden AND chickens?This book will also cover all bases from the chicken's-eye view, down here in the dirt, where there are all manner of wonderful things to eat and poop on.
