Diaspora of the Gods-Joanne Punzo Waghorne 2004-09-16 Many Hindus today are urban middle-class people with many religious values in common with their professional counterparts in America or Europe. Just as so many modern professionals continue to build new churches, synagogues, and mosques, contemporary Hindus attend to the construction and maintenance of their religious institutions wherever their work and life takes them. In *Diaspora of the Gods*, Joanne Punzo Waghorne traces the changing religious sensibilities of the Hindu middle class. Waghorne leads her readers on a journey through the world of the new Hindu middle-class, focusing on their efforts to build and support places of worship. She invites the reader into the neighborhoods of Chennai to view often-innovative new and renovated temples constructed in a sometimes seemingly incongruous urban environment. Her journey, however, does not end there. The cousins and brothers--literal and figurative--of temple patrons and devotees in Chennai are constructing divine houses abroad that are remaking the religious panorama of the United Kingdom and the United States. Waghorne leads us into the London neighborhood of Tooting, climbing upstairs in a former warehouse to see a Goddess temple constructed from plywood painted in trompe l'oeuil to create all of the features of a proper temple. Elsewhere in London, we meet the God Murugan in an almost hidden temple immured within the stone shell of a former Church and another Goddess whose temple is tucked inside a lovely white church on a quiet street. In Washington, a multiplicity of Gods shares a glorious white temple in an otherwise ordinary suburban neighborhood. Waghorne offers detailed comparisons of these temples, and interviews temple priests, devotees, and patrons. In the process, she illuminates the interrelationships between ritual worship and religious edifices, the rise of the modern world economy, and the ascendancy of the great middle class. This is the first comprehensive portrait of Hinduism as lived today by so many both in India and throughout the world.

My Religion-M. K. GANDHI 101-01-01 Gandhiji was born a Hindu. But his Hinduism was his own. It had its roots firm in ancient Hinduism, but it grew and developed in the light of his contact with other religions, more especially Christianity, as will be seen from Section Two of this volume. He sought to drink at the spring of all religions, and therefore he felt that he belonged to every religion. And yet, if he had to have a label, the label he preferred and which was his not only by right of birth but also intrinsically, was Hinduism, the religion of his forefathers.

A Prehistory of Hinduism-Manu V. Devadevan 2016-10-10 This book is a pioneering attempt to understand the prehistory of Hinduism in South Asia. Exploring religious processes in the Deccan region between the eleventh and the nineteenth century with class relations as its point of focus, it throws new light on the making of religious communities, monastic institutions, legends, lineages, and the ethics that governed them. In the light of this prehistory, a compelling framework is suggested for a revision of existing perspectives on the making of Hinduism in the nineteenth and the twentieth century.

Worship and the Ceremonial Economy of a Royal South Indian Temple-Anthony Good 2004 The temple of the god Kalugacalamurtti - the local name for Murugan, Siva's younger son - is the largest economic enterprise in the town of Kalugumalai, South India, yet ostentatious display and devotionality loom far larger in the conduct of its affairs than economic rationality, despite attempts at bureaucratic rationalism by successive governments. This book describes this Hindu temple's complex patterns of public liturgy and private worship, and explores the metaphysical themes which underlie them according to the Saiva Siddhanta philosophy governing temple worship. It shows how temple rituals portray and enact the sexuality, kinship, and regality of the gods. It then recounts how temple economy and administration have changed over the past two centuries, how groups and interests within Kalugumalai town challenged the temple's hegemony over their affairs, and how and why the Rajas of Ettaiyapuram, the temple's hereditary Trustees, successfully resisted repeated government attempts to assume control of the temple over the past 50 years. There have relatively few previous ethnographic studies of large Hindu temples and no other field-worker has access to such detailed information

Ritual in an Oscillating Universe-Richard H. Davis 2014-07-14 Saiva liturgy is performed in a world that oscillates: a world permeated by the presence of Siva, where humans live in a condition of bondage and where the highest aim of the soul is to attain liberation from its fetters. In this account of Indian temple ritual, Richard Davis uses medieval Hindu texts to describe the world as it is envisioned by Saiva siddhanta and the way daily worship reflects and acts within that world. He argues that this worship is not simply a set of ritualized gestures, but rather a daily catechism in which the worshiper puts into action all the major themes of Saiva philosophy: the cyclic pattern of cosmic emission and reabsorption, the human path of attaining liberation, the manifestation of divinity in the world, and the proper interrelationship of humanity and god. In re-creating the convictions and intentions of a well-versed worshiper of the twelfth century, Davis moves back and forth between philosophical and ritual texts, demonstrating the fundamental Saiva belief that the capacities of humans to know about the world and to act within it are two inter-related modalities of the unitary power of consciousness. Hinglaj Devi-Jurgen Schaflechner 2018-01-17 About two hundred kilometers west of the city of Karachi, in the desert of Baluchistan, Pakistan, sits the shrine of the Hindu Goddess Hinglaj. Despite the temple's ancient Hindu and Muslim history, an annual festival at Hinglaj has only been established within the last three decades, in part because of the construction of the Makran Coastal Highway, which connects the distant rural shrine with urban Pakistan. Now, an increasingly confident minority Hindu community has claimed Hinglaj as their main religious center, a site for undisturbed religious performance and expression. In Hinglaj Devi, Jürgen Schaflechner studies literary sources in Hindi, Sanskrit, Sindhi, and Urdu alongside extensive ethnographical research at the shrine, examining the political and cultural influences at work at the temple and tracking the remote desert shrine's rapid ascent to its current status as the most influential Hindu pilgrimage site in Pakistan. Schaflechner introduces the unique character of this place of pilgrimage and shows its modern importance not only for Hindus, but also for Muslims and Sindhi nationalists. Ultimately, this is an investigation of the Pakistani Hindu community's beliefs and practices at their largest place of worship in the Islamic Republic today--a topic of increasing importance to Pakistan's contemporary society.

Religions of India in Practice-Donald S. Lopez Jr. 1995-04-23 The inaugural volume of Princeton Readings in Religions brings together the work of thirty scholars of the religions of India in a new anthology designed to reshape the ways in which the religious traditions of India are understood. The book contains translations of forty-five works, most of which have never before been available in a Western language. Many of these highlight types of discourse (especially ritual manuals, folktales, and oral narratives) and voices (vernacular, esoteric, domestic, and female) that have not been sufficiently represented in previous anthologies and standard accounts of Indian religions. The selections are drawn from ancient texts, medieval manuscripts, modern pamphlets, and contemporary fieldwork in rural and urban India. They represent every region in South Asia and include Hindu, Buddhist, Jain, Sikh, and Muslim materials. Some are written texts reflecting elite concerns, while others are transcriptions of oral narratives told by nonliterate peasants. Some texts are addressed to a public and pan-Indian audience, others to a limited coterie of initiates in an esoteric sect, and still others are intended for a few women gathered in the courtyard for a household ceremony. The editor has reinforced this diversity by arranging the selections within several overarching themes and categories of discourse (hymns, rituals, narratives, and religious interactions), and encourages us to make our own connections.
