Unifying Hinduism-Andrew J. Nicholson 2013-12-01 Some postcolonial theorists argue that the idea of a single system of belief known as "Hinduism" is a creation of nineteenth-century British imperialists. Andrew J. Nicholson introduces another perspective: although a unified Hindu identity is not as ancient as some Hindus claim, it has its roots in innovations within South Asian philosophy from the fourteenth to seventeenth centuries. During this time, thinkers treated the philosophies of Vedanta, Samkhya, and Yoga, along with the worshippers of Visnu, Siva, and Sakti, as belonging to a single system of belief and practice. Instead of seeing such groups as separate and contradictory, they re-envisioned them as separate rivers leading to the ocean of Brahman, the ultimate reality. Drawing on the writings of philosophers from late medieval and early modern traditions, including Vijnanabhiksu, Madhava, and Madhusudana Sarasvati, Nicholson shows how influential thinkers portrayed Vedanta philosophy as the ultimate unifier of diverse belief systems. This project

paved the way for the work of later Hindu reformers, such as Vivekananda, Radhakrishnan, and Gandhi, whose teachings promoted the notion that all world religions belong to a single spiritual unity. In his study, Nicholson also critiques the way in which Eurocentric concepts—like monism and dualism, idealism and realism, theism and atheism, and orthodoxy and heterodoxy—have come to dominate modern discourses on Indian philosophy.

The Hindus-Wendy Doniger 2010-09-30 An engrossing and definitive narrative account of history and myth that offers a new way of understanding one of the world's oldest major religions, *The Hindus* elucidates the relationship between recorded history and imaginary worlds. Hinduism does not lend itself easily to a strictly chronological account: many of its central texts cannot be reliably dated even within a century; its central tenets karma, dharma, to name just two arise at particular moments in Indian history and differ in each era, between genders, and caste to caste; and what is shared among Hindus is overwhelmingly outnumbered by the things that are unique to one group or another. Yet the greatness of Hinduism - its vitality, its earthiness, its vividness - lies precisely in many of those idiosyncratic qualities that continue to inspire debate today. Wendy Doniger is one of the foremost scholars of Hinduism in the world. With her inimitable insight and expertise Doniger illuminates those moments within the tradition that resist forces that would standardize or establish a canon. Without reversing or misrepresenting the historical hierarchies, she reveals how Sanskrit and vernacular sources are rich in knowledge of and compassion toward women and lower castes; how they debate tensions surrounding religion, violence, and tolerance; and how animals are the key to important shifts in attitudes toward different social classes. *The Hindus* brings a fascinating multiplicity of actors and stories to the stage to show how brilliant and creative thinkers - many of them far removed from Brahmin authors of Sanskrit texts - have kept Hinduism alive in ways that other scholars have not fully explored. In this unique and authoritative account, debates about Hindu traditions become platforms from which to consider the ironies, and overlooked epiphanies, of history.

Kabir, the Apostle of Hindu-Muslim Unity-Muhammad Hedayetullah 1977 Hinduism and Islam are usually considered to be poles apart, especially on religious grounds. But in this work, the author has endeavoured to demonstrate that in spite of sharp differences between them, they met on religious, commercial, intellectual and political levels both in and outside of India. Inside India, since the Muslim conquest of Sindh in 712 A.D. Hindu-Muslim amity was inevitable for a score of reasons. Understanding on one front led to concord between the two communities on all levels. Although orthodox Hinduism and orthodox Islam could hardly reconcile, it is shown here that they were bound to accommodate each other. However, the real fusion took place with the coming to India of a host of Sufis; especially the lives and conduct of the left wing mystics of both religions made the two peoples to come closer through Bhakti mystics who strove in this direction, Dr. Hedayetullah made a special study of Kabir (d. 1518) who dedicated his whole life to the achievement of Hindu-Muslim unity, but he has also been misunderstood by many. In the present work, he is shown to have gained the place of

honour between the two religions as a mediator and a harmoniser. His efforts were crowned with success-the resultant Indo-Islamic culture and civilization is a living proof. Hinduism in India-Will Sweetman 2016-05-23 A major contribution toward the ongoing debates on the nature and history of Hinduism in India Is Hinduism coherent, or should it be viewed as a conglomeration of many distinctive traditions? What were (or are) its most important and central teachings? When did the idea of "Hinduism" first arise and what have been the consequences? What were the effects of British rule on the religion and what are the effects of continuing modernization? This book responds to all such debates surrounding Hinduism in the colonial and contemporary periods. It emphasizes on Hinduism as it arose and developed in the subcontinent itself—an approach which facilitates greater attention to detail and an understanding of the specific context in which new movements and changes have taken place.

Hinduism-Shyam Ranganathan 2018-07-06 Hinduism: A Contemporary Philosophical Investigation explores Hinduism and the distinction between the secular and religious on a global scale. According to Ranganathan, a careful philosophical study of Hinduism reveals it as the microcosm of philosophical disagreements with Indian resources, across a variety of topics, including: ethics, logic, the philosophy of thought, epistemology, moral standing, metaphysics, and politics. This analysis offers an original and fresh diagnosis of studying Hinduism, colonialism, and a global rise of hyper-nationalism, as well as the frequent acrimony between scholars and practitioners of Hindu traditions. This text is appropriate for use in undergraduate and graduate courses on Hinduism, and Indian philosophy, and can be used as an advanced introduction to the problems of philosophy with South Asian resources.

Swami Vivekananda and the Modernization of Hinduism-William Radice 1998 Bringing together fourteen papers, this book gives new depth to our understanding of the aims and achievements of Swami Vivekananda. It invites us to relate him to movements and individuals outside his native Bengal; it shows how modernizing trends in Indian society wrestled with traditional features of Hinduism such as caste; and it links his religious and social ideals to thinkers and theologians in the West. The book firmly distances Swami Vivekananda from chauvinist or communal misinterpretations of his work.

Hindu Philosophy-Theos Bernard 1999 The aim of Hindu Philosophy is the extinction of sorrow and suffering by the method of knowledge that alone can free man from the bondage of

ignorance. It points to a clear way of thinking which enables one to understand Reality by direct experience. In this perspective, Hindu Philosophy is an art of life and not a theory. In this book the author presents a precise and illuminating study of six systems of Indian Philosophy classified into three divisions (1) Nyaya-Vaisesika, (2) Samkhya-Yoga, (3) Mimamsa-Vedanta. The first division lays down the methodology of science and elaborates the concepts of Physics and Chemistry to show how manifestations of phenomena come into being. The second division sets forth an account of cosmic evolution on purely logical principles. The third division critically analyses the basic principles, developing them in greater detail and furnishing arguments to substantiate, as well as making incidental contribution on points of special interest. Beside presenting an account of philosophical systems of India, the author adds a study of Kashmir Saivism--a system of Ideal Monism founded by Vasugupta and based on Siva Sutras. In this context the author throws sufficient light on the traditional Tantric literature that has suffered wide criticism both from Western and Eastern scholars. The book is documented with Preface, Introduction and Glossarial Index.
