David and Goliath-Malcolm Gladwell 2015-04-07 Malcolm Gladwell's provocative new #1 bestseller -- now in paperback. Three thousand years ago on a battlefield in ancient Palestine, a shepherd boy felled a mighty warrior with nothing more than a pebble and a sling—and ever since, the names of David and Goliath have stood for battles between underdogs and giants. David's victory was improbable and miraculous. He shouldn't have won. Or should he? In DAVID AND GOLIATH, Malcolm Gladwell challenges how we think about obstacles and disadvantages, offering a new interpretation of what it means to be discriminated against, suffer from a disability, lose a parent, attend a mediocre school, or endure any number of other apparent setbacks. In the tradition of Gladwell's previous bestsellers—The Tipping Point, Blink, Outliers and What the Dog Saw—DAVID AND GOLIATH draws upon history, psychology and powerful story-telling to reshape the way we think of the world around us.

Author love Linden. She, and other neighbors in town, to the girl who was once and shall forever in spirit remain part of the Linden Community, she dedicate this book to the victim, Ms. Amber Duncan-Wilson, who was brutally taken away from the LINDEN, NJ and Union County community, far too soon, and in the most vicious callous way, by a punk with a gun. A low-life who had no respect for his own life, let alone for hers. I pray for her, and her family as the author, and we shall continue to pray for justice as we release such book on other victims, who have remained on the author mind, throughout other states off I-95 and from a town that for decades, have meant so much to the author, and that is the senseless murder of this 18 year old girl, whose dreams were cut short, senselessly in a residential suburban city in Union County, that has barely any serious crime ever taken place, as well as during the year of Amber murder. (There were ZERO murders during such year as media validate, til Amber.) - From a nice suburban residential low-crime community known as LINDEN, a murderer continue to roam the quiet residential streets, of our nice town, and or residing in the near by "hood" type areas, where he don't need to be. He took the life of a promising Linden High School Student, good student, and she was also co-captain of the L.H.S., cheerleading squad. She loved her life." She has a name, even if media has not covered such warranted news top story in our area and state. She has name. Her name is AMBER DUNCAN-WILSON. Part of our community. She lived a few blocks away (in 2012) from the author and C.E.O., Owner of Women 4 Justice, Redhead BELLA Magazine and BMW-Beach house Redhead Music, Publishing Productionz NYC. -Amber and her family deserve justice. It has been shockingly, five long years, and yet there is no new news media/coverage on the active, vibrant and kind, loving young teen whose murder has sadly at first received much media coverage (five yrs. ago) and after that? NOTHING. Quite sporadic. Amber deserve better as she rest in God's heavenly peace. HER FAMILY deserve better than this. Her family deserve JUSTICE, in Linden, NJ. #HerLifeStillMatter even as she is RIP. - Several other victim cases are also not solved. From Linden, New Jersey to murders off I-95 in the tri-state down in DELAWARE, 2 victims shot and killed, execution style, in a store. Yet...there still are no updates/killer is still on the loose, free to roam the streets of DE., and or the surrounding area, til' caught and brought to JUSTICE. - Further south, off I-95... North Carolina. A serial killer feasibly, murdered not 1 but up to 10 women. Such women all and or most were known to have a 'drug history/bad life.' But, they didn't deserve what happened to them. 1 victim's death, has led the Rocky Mount and the Edgecombe County Police to a suspect. The book expound further on such relevance. But there is no real justice (still) for years involving the other families, who are still awaiting justice. In Washington, (2017) you have several black hispanic children are now sadly missing in our nation's capital. We also pray for the latina/hispanic/black girls missing in such nation's capital to be found alive and well real soon... #PRAYERS 4 ALL VIC

The Lady of Sing Sing-Idanna Pucci 2020-03-10 This "gripping social history" (Publishers Weekly), with all the passion and pathos of a classic opera, chronicles the riveting first campaign against the death penalty waged in 1895 by American pioneer activist, Cora Slocomb, Countess of Brazzà, to save the life of a twenty-year-old illiterate Italian immigrant, Maria Barbella, who killed the man who had abused her. Previously published as The Trials of Maria Barbella. In 1895, a twenty-two-year-old Italian seamstress named Maria Barbella was accused of murdering her lover, Domenico Cataldo, after he seduced her and broke his promise to marry her. Following a sensational trial filled with inept lawyers, dishonest reporters and editors, and a crooked judge repaying political favors, the illiterate immigrant became the first woman sentenced to the newly invented electric chair at Sing Sing, where she is also the first female prisoner. Behind the scenes, a corporate war raged for the monopoly of electricity pitting two giants, Edison and Westinghouse with Nikola Tesla at his side, against each other. Enter Cora Slocomb, an American-born Italian aristocrat and activist, who launched the first campaign against the death penalty to save Maria. Rallying the New York press, Cora reached out across the social divide—from the mansions of Fifth Avenue to the tenements of Little Italy. Maria's "crime of honor" quickly becomes a cause celebre, seizing the nation's attention. Idanna Pucci, Cora's great-granddaughter, masterfully recounts this astonishing story by drawing on original research and documents from the US and Italy. This dramatic page-turner, interwoven with twists and unexpected turns, grapples with the tragedy of immigration, capital punishment, ethnic prejudice, criminal justice, corporate greed, violence against women, and a woman's right to reject the role of victim. Over a century later, this story is as urgent as ever.

Grunch* of Giants-R. Buckminster Fuller 1983-04-15 With the appearance of Grunch of Giants, R. Buckminster Fuller consummates his literary canon, his panoramic lifetime survey of all aspects of the responsibility of human beings for their own destiny. This book is a modern allegory - his long-gestated myth-of the villainy of capitalism and the fecklessness of classic economics. For Fuller, the academic discipline of economics is irrelevant since it derives from an invalid assumption of scarcity. In fact, he has long argued that future historians of our era may subsume our business practices as a branch of mythology; thus it is not surprising that the word economic appears nowhere in his text. Fuller's myth is no idle fairy tale, since he faces his question - the question of a technological imperative which only he could raise with the deadly seriousness of satire. That question is: Can our system of national political sovereignties and corporate profits survive the inevitable technology revolution require to obviate wars by effecting a worldwide rise in the standard of living. One of the functions of myth is to resolve contradictions in our culture. Grunch of Giants portrays the rising of multinational corporations in the paradoxical role of function both as the epitome of capitalistic selfishness and as the inadvertent vehicle for the dissolution of national political boundaries - the last deterrent to a one-world economy. The result is more subversive of the property and profit values of the capitalist system than anything dreamed of since Karl Marx. —E.J. Applewhite, collaborator with RBF on Synergetics and Synergetics 2, author of Cosmic Fishing: A Memoir of Working With R. Buckminster Fuller

The Sacred Wound-Lois Gold 2000-11-01 This is an account of one of life's most painful experiences--the sudden death of a child. A mother's anguish compels her to examine beliefs about what comes after death and to explore ancient healing methods in Mexico, Brazil, and Bali. At its core a spiritual odyssey, The Sacred Wound is about creating meaning from life-shattering events--events which can utterly destroy us or serve as a call to extraordinary courage and growth. A life-shattering event is a modern day "sacred wound," a wounding so profound that it pierces the soul and penetrates the veils of who we are and what we think life is about. Like a mythological hero, we will emerge from the ordeal another person. As the author says, "For three years grief was my consort, it became my teacher." This inspiring and searingly honest book is about more than survival following the death of a loved one; it is about the gift in tragedy's other hand. It is about discovering the truth that love is the central experience of life and not simply mortality, and that this truth can emerge in ways we can never predict or expect

Moonwalking with Einstein-Joshua Foer 2012-02-01 'If you want to understand how we remember, and how we can all learn to remember better, then read this book' Jonah Lehrer Can anyone get a perfect memory? Joshua Foer used to be like most of us, forgetting phone numbers and mislaying keys. Then he learnt the art of memory training, and a year later

found himself in the finals of the US Memory Championship. He also discovered a truth we often forget: that, even in an age of technology, memory is the key to everything we are. In *Moonwalking with Einstein* he takes us on an astonishing journey through the mind, from ancient 'memory palace' techniques to neuroscience, from the man who can recall nine thousand books to another who constantly forgets who he is. In doing so, Foer shows how we can all improve our memories. 'The most entertaining science book of the year' Sunday Times, Books of the Year 'Captivating . . . engaging . . . smart and funny' The New York Times 'Delightful . . . uplifting . . . it shows that our minds can do extraordinary things' Wall Street Journal 'A lovely exploration of the ways that we preserve our lives and our world in the golden amber of human memory' New Scientist

Six Days-Jeremy Bowen 2012-09-27 The Six-Day War was an extraordinary human drama. It swept up a generation of Israelis and Arabs whose children still cannot live peacefully in the world the war created. Today, Israel is the superpower of the region. It has nuclear weapons but has never been able to digest the land it swallowed in 1967. However big its army, it will never be at peace or feel secure until the future of this land is settled. Thirty-six years after the end of the six days of fighting, after thousands more deaths and the failure of years of negotiation to try to reach a political settlement, Israelis and Palestinians are fighting once again on the streets in the West Bank and Gaza. It is still a low-level conflict, but if another full-blown Middle East war breaks out, its roots will lie in those six days in June 1967. Drawing on his experiences as the BBC's former Middle East correspondent, and building on extensive original research and interviews with some of the key participants, Jeremy Bowen uses his vast array of contacts to weave together a completely convincing and compelling account, hour by hour, of the 1967 war between Israel and Egypt, Jordan and Syria. As insightful as the best modern history writing and as gripping as fiction, this is a major debut by an author with superb media contacts.

The Curse of the Indy 500-Stan Sutton 2018-04-16 On May 30, 1958, thousands of racing fans poured into the infield at dawn to claim the best seats of the Indianapolis 500, unaware that they were going to witness one of the most notorious wrecks in racing history. Seconds after the green flag, a game of chicken spiraled out of control into a fiery 16-car pile-up that claimed the life of 29-year-old Indiana native and rising star Pat O'Connor. The other drivers escaped death, but the tragic 1958 Indy 500 seemed to leave its mark on them: the surviving drivers were hounded by accidents and terrible crashes, and most would die at tracks around the country. But the tragedy also prompted new regulations and safety precautions like roll bars that would ultimately save hundreds of lives. In *The Curse of Indy 500: 1958's Tragic Legacy*, veteran sportswriter Stan Sutton profiles the ill-fated race and the careers of the drivers involved, highlighting their lives in the dangerous world of auto racing.

The Lazarus Impact-Vincent Todarelo 2013-03-12 A meteor shower pelts the earth with strange debris on Christmas Eve. The US power grid fails due to the impact of a large meteorite. The dust plume causes severe illness and death as it blows east across America. As a result the government quarantines the entire northeast. Military personnel wearing gas masks patrol the edges of the affected area, preventing anyone from crossing. But when the dead start coming back to life and eating the living, the US braces itself for a full-on zombie outbreak that no military barricade can keep contained. *The Lazarus Impact* is a fast paced, high intensity, peri-apocalyptic zombie action thriller that traces the stories of eight unique and diverse characters as they travel through the madness, trying to head west past the quarantine to safety... or so they think. Wolf, an extreme survivalist television personality, is the first one on the scene when the meteors hit, filming the damage. Dr. Vogel, a former infectious disease lab rat turned physician, is on a mission to get to the CDC to give them samples of what he thinks might be the basis for a cure. Willy, an old, hardened, Vietnam War veteran suffering from PTSD, witnesses the outbreak as it ramps up in intensity at the hospital where he works as a janitor. Sheryl, a suburban housewife, learns of the dust when she gets a call from a neighbor that her boys are sick on the football field. Marcus, a reformed prison inmate with a violent past, escapes with a band of unscrupulous marauders during a riot. Michael and Amy, a bickering couple from NYC, struggle to get out of Manhattan despite the bridges and tunnels being barricaded and locked down. And Brandon, an awkward teenager with an obsession for horror comics and video games, hides out in his parents Cold War era bunker until he runs out of fuel. When their paths intersect they must help and rely on each other for survival. The plan is to move west, past the quarantine, and make their way to a secure compound where people have been preparing for doomsday for decades. But the nightmares they face on the way west are only a shadow of the dangers they may encounter on the other side of the quarantine, where the American people have taken up arms to defend their new but porous borders. Will any survive the journey? Is it even worth it?

Debt-David Graeber 2012 Economic history states that money replaced a bartering system, yet there isn't any evidence to support this axiom. Anthropologist Graeber presents a stunning reversal of this conventional wisdom. For more than 5000 years, humans have used elaborate credit systems to buy and sell goods. Since the beginning of the agrarian empires, humans have been divided into debtors and creditors. Through time, virtual credit money was replaced by gold and the system as a whole went into decline. This fascinating history is told for the first time.

The Liberty Girl-Rena I. Halsey 2016-06-21 "Oh, Nathalie, I do believe there's Grace Tyson in her new motor-car," exclaimed Helen Dame, suddenly laying her hand on her companion's arm as the two girls were about to cross Main Street, the wide, tree-lined thoroughfare of the old-fashioned town of Westport, Long Island. Nathalie Page halted, and, swinging about, peered intently at the brown-uniformed figure of a young girl seated at the steering-wheel of an automobile, which was speeding quickly towards them.

Hiroshima-John Hersey 2020-06-23 Hiroshima is the story of six people--a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest--who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima.

Ares-Charles River Charles River Editors 2017-05-24 *Includes pictures *Includes ancient myths and accounts of Ares and cults that worshiped him *Includes online resources and a bibliography for further reading Ares, the God of War and personification of all that is reactionary and violent, is remembered today as the hated, unshakeable, and infallible embodiment of the violence prevalent in war and society at large, but surviving evidence suggests that this may not have always been the case. To understand that,

it's necessary to remember that Greek mythology has been filtered and tempered by centuries of editors and zealots and fickle word of mouth. The stories that arrive in the beloved mythology books of today were not necessarily those read and told by the ancients. This is true not only thanks to later mythographers' overeager shears, wielded in order to strip the ancient Greek myths of much of their "heathenism," but also because over 2,000 years later, modern society is not privy to much of the cultural strata from which these stories emerged. This book was written in the hope of presenting the modern reader with as much of the latter as possible, so as to provide a more accurate representation of Ares than is found in most modern collections of ancient Greek mythology. Being the "living" representation of the act that killed family members every year is more than enough to attract a certain degree of ignominy, but it is very likely that negative feelings towards Ares were not as pervasive among the ancient Greeks as one might believe today. An important thing to bear in mind when thinking about the stories of Ares is that the thin vein of myth that has come down today most often comes directly from Athenian sources, which were unfavorable towards Ares because they were generally unfavorable towards anything considered un-Athenian. The historian Thucydides, while discussing the Peloponnesian War, which was fought between Athens and Sparta at the end of the 5th century BCE, said that any "future scholar" would no doubt believe that the great city of Sparta was culturally insignificant in comparison with her enemy, Athens. It is well known today that Ares was worshipped by the warlike Spartans, but since they created very few grandiose works of architecture or literature (compared to those that came out of Athens), Sparta's views on Ares, and most other deities they worshipped, are paltry. Athenian culture, on the other hand, dominated the ancient world's art and culture, and its influence was felt strongly in the beloved myths and histories of the epoch. For better or worse, then, Athens left subsequent generations their marginalized corpus of ideas on ancient Greek religion, and this can be seen in the paltry occurrences of Ares in modern books on Greek mythology today. That said, being a worshipper of Ares didn't necessitate the bellicose nature of the Spartans, either. Although Athens left literary and archaeological evidence of their preferences for civic worship, many other poleis (Greek city-states) were loath to openly despise the god of war, despite his macabre associations. After all, war was a facet of yearly life, and Ares was one of the 12 gods of the highest Greek pantheon of deities who commanded worship according to a divine mandate. Ares's appearances in myths today (his affair with Aphrodite being a strong favourite) seem to be cursed by repeated banality. There's little of the "War God" in any of his stories other than the odd mention of how horrid he is. However, with a little effort, Ares and his influences can be found, even if only at the fringes of the stories, in the wider literary canon. One such example is the "Judgment of Paris," which refers to the Trojan warrior Paris's decision to award Aphrodite with the Golden Apple of the Hesperides (or the "Apple of Discord," as it came to be known).

Bad Boy-Walter Dean Myers 2009-10-06 New York Times bestselling author Walter Dean Myers traveled back to his roots in this memoir that is gripping, funny, and ultimately unforgettable. Don't miss this memoir by a former National Ambassador of Books for Young People! As a boy, Myers was quick-tempered and physically strong, always ready for a fight. He also read voraciously—he would check out books from the library and carry them home, hidden in brown paper bags in order to avoid other boys' teasing. He aspired to be a writer (and he eventually succeeded). But as his hope for a successful future diminished, the values he had been taught at home, in school, and in his community seemed worthless, and he turned to the streets and to his books for comfort. Here, in his own words, is the story of one of the most important voices of our time.

Putin's People-Catherine Belton 2021-06-22 A Sunday Times bestseller | A New York Times Book Review Editors' Choice Named a best book of the year by The Economist | Financial Times | New Statesman | The Telegraph "[Putin's People] will surely now become the definitive account of the rise of Putin and Putinism." —Anne Applebaum, The Atlantic "This riveting, immaculately researched book is arguably the best single volume written about Putin, the people around him and perhaps even about contemporary

Russia itself in the past three decades." —Peter Frankopan, Financial Times Interference in American elections. The sponsorship of extremist politics in Europe. War in Ukraine. In recent years, Vladimir Putin's Russia has waged a concerted campaign to expand its influence and undermine Western institutions. But how and why did all this come about, and who has orchestrated it? In *Putin's People*, the investigative journalist and former Moscow correspondent Catherine Belton reveals the untold story of how Vladimir Putin and the small group of KGB men surrounding him rose to power and looted their country. Delving deep into the workings of Putin's Kremlin, Belton accesses key inside players to reveal how Putin replaced the freewheeling tycoons of the Yeltsin era with a new generation of loyal oligarchs, who in turn subverted Russia's economy and legal system and extended the Kremlin's reach into the United States and Europe. The result is a chilling and revelatory exposé of the KGB's revanche—a story that begins in the murk of the Soviet collapse, when networks of operatives were able to siphon billions of dollars out of state enterprises and move their spoils into the West. Putin and his allies subsequently completed the agenda, reasserting Russian power while taking control of the economy for themselves, suppressing independent voices, and launching covert influence operations abroad. Ranging from Moscow and London to Switzerland and Brooklyn's Brighton Beach—and assembling a colorful cast of characters to match—*Putin's People* is the definitive account of how hopes for the new Russia went astray, with stark consequences for its inhabitants and, increasingly, the world.

Terrorism, Crime, and Public Policy-Brian Forst 2008-10-20 *Terrorism, Crime, and Public Policy* describes the problem of terrorism; compares it to other forms of aggression, particularly crime and war; and discusses policy options for dealing with the problem. It focuses on the causes of terrorism with the aim of understanding its roots and providing insights toward policies that will serve to prevent it. The book serves as a single-source reference on terrorism and as a platform for more in-depth study, with a set of discussion questions at the end of each chapter. Individual chapters focus on: the nature of terrorism, theories of aggression and terrorism, the history of terrorism, globalization vs. clash, the role of religion, nonreligious extremism and terrorism, the role of technology, terrorism throughout the modern world, responses to terrorism, fear of terrorism, short-term approaches and long-term strategies for preventing terrorism, balancing security and rights to liberty and privacy, and pathways to a safer and saner 21st century.
