The World of Kew-Carolyn Fry 2010-12-15 Without plants, there would be no life on earth. Kew Gardens is famous for its breathtaking displays of flowers and trees, but this World Heritage Site is also a globally important scientific and historical organization. Scientists and gardeners use the plants and knowledge that have been collected at Kew since the eighteenth century to advance understanding of the earth's environment and of how plant life can be used for human benefit. Published to accompany the ten-part BBC2 series A New Year at Kew, this fascinating book takes us behind the scenes to show the extraordinary range of work carried out at Kew Gardens and Wakehurst Place - home to the Millennium Seed Bank - and by Kew staff overseas. From using forensic botany to micropropagating plants facing extinction, from investigating herbal cures from Alzheimer's disease to replanting the volcano-ravaged island of Montserrat, the book shows us aspects of Kew's work that are largely hidden from view but the benefits of which are far-reaching! In the process it provides an absorbing and accessible introduction to such topical subjects as biodiversity, practical conservation and economic botany. Lavishly illustrated and filled with engrossing stories and engaging characters, this book brings to life the world of Kew and the global importance of its work.

Kew Gardens: Foliage and Flowers by Marianne North (Blank Sketch Book)-Flame Tree Studio 2021-05-18 A FLAME TREE SKETCHBOOK. Beautiful and luxurious the sketchbooks combine high-quality production with magnificent art. Perfect as a gift, and an essential personal choice for artists, notetakers, travellers, students, poets and diarists. Features a wide range of well-known and modern artists, with new artworks published throughout the year. BEAUTIFULLY DESIGNED. The highly crafted covers are printed on foil paper, embossed then foil stamped, complemented by the luxury binding and rose red end-papers. The covers are created by our artists and designers who spend many hours transforming original artwork into gorgeous 3d masterpieces that feel good in the hand, and look wonderful on a desk or table. THE ARTIST. The Royal Botanic Gardens, Kew is a world famous centre for botanical and mycological knowledge. Kew has a gallery dedicated to the paintings of the remarkable Victorian artist Marianne North, who had a great eye for botanical detail. She set out in 1871 on a painterly progress through world flora. North's journey to South Africa was among her last, along with trips to the Seychelles and Chile. THE FINAL WORD. As William Morris said, Have nothing in your houses that you do not know to be useful, or believe to be beautiful.

The Kew Gardener's Guide to Growing Bulbs-Richard Wilford 2019-09-03 The new Kew guide to planting and cultivating bulbs features 12 easy and inspiring projects, detailed information on 66 of the most important species to grow, accompanied by Kew's beautiful botanical illustrations. With expert advice from Kew bulb expert Richard Wilford and the Kew Gardens team, this is the ultimate companion to growing and planting with bulbs. In this book Richard Wilford shows the key differences between bulbs, corms and tubers, he explains the importance of planting times and techniques, he explains simple methods for propagation, as well as planting instructions for growing in borders, within grassy areas or in containers. He identifies the most popular flowering times and provides bulbs of interest all year round. He presents all the important bulbs, from winter snowdrops, crocuses, cyclamen, hyacinths, irises; spring daffodils, tulips, snowflakes, lily-of-the-valley; summer alliums, lilies, agapanthus, foxtail lily; as well as autumn snowflakes, colchicum, cyclamen and amaryllis. The 12 special projects are broad and attractive. They comprise: how to grow and display ornamental onions; how to plant hippeastrums indoors on a windowsill; how to establish a carpet of anemones; how to layer bulbs in containers 'lasagne' style; how to plant a drift of snake's head fritillaries; how to establish bulbs in a shady border; how to design a spring bulb extravaganza; how to make a cutting patch for bulbs; how to grow tulips from seed; how to naturalise autumn-flowering bulbs; how to establish a winter bulb garden; and how to time a three-month display of tulips. Bulb problems and pests easily handled in the troubleshooting section, and a handy checklist of what to do when guides growers throughout the year. The Kew Gardener's Guide to Growing Bulbs is part of the Kew Gardener's Guide to Growing series and is accompanied by Growing Herbs, Growing House Plants, Growing Vegetables, Growing Orchids and Growing Fruit. The only book you'll need to grow more than 66 species, beautifully, practically, successfully.
