Eyewitnesses swore this wasn't a whale, but some new, fearsome creature. As eyewitness account piled up, newspaper stories of the sea monster spread quickly. Across the nation, people shivered in fear. Then, footprints were found on a Nantucket beach. Photographs were sent to prominent biologists for their opinion. Discussion swirled about raising a hunting party. On August 18, news spread across the island: the sea monster had been captured. Islanders ran to the beach and couldn't believe their eyes.
