The History of Ancient India-Ramesh Chunder Dutt 2009 The History of Ancient India is a history of thirty centuries of human culture and progress. It divides itself into several distinct periods, each of which, for length of years, will compare with the entire history of many a modern people. The

subject of the present work, about which I wish to say a few words. I have often asked myself: Is it possible, with the help that is now available, to write, in a handy work, a clear, historical account of the Civilization of Ancient India, based on ancient Sanskrit literature, and written in a sufficiently popular manner to be acceptable to the general reader? The method on which this work has been written is very simple. My principal object has been to furnish the general reader with a practical and handy work on the Ancient History of India. Every chapter in the present work deals with matters about which long researches have been made, and various opinions have been recorded. All the work divided into five parts like: Vedic Period, B.C. 2000 to 1400; Epic Period, B.C. 1400 to 1000; Rationalistic Period, B.C. 1000 to 242; Buddhist Period, B.C. 242 to A.D. 500; Pauranik Period, A.D. 500 to 1194.

Religious Traditions in Modern South Asia-Jacqueline Suthren Hirst 2013-03-01 "This book offers a fresh approach to the study of religion in modern South Asia. It uses a series of case studies to explore the development of religious ideas and practices, giving students an understanding of the social, political and historical context. It looks at some familiar themes in the study of religion, such as deity, authoritative texts, myth, worship, teacher traditions and caste, and some of the key ways in which Buddhism, Hinduism, Islam and Sikhism in South Asia have been shaped in the modern period. The book points to the diversity of ways of looking at religious traditions and considers the impact of gender, politics, and the way religion itself is variously understood."--Publisher's description.

Great Religions of the Modern World-Edward Jabra Jurji 2015-12-08 Here is the answer to the desire of many thoughtful laymen for an intelligent appraisal of the great contemporary faiths. This is not a reference book, but a group of essays for the general reader on the idea, the spiritual core, of the chief religions of the modern day. Each essay is written simply and objectively by an eminent scholar, with the authority that is the fruit of a lifetime study of his subject. Fidelity to the classical tenets of each religion and a desire to permit each to speak for itself are salient features of the work of these men. They collaborated on the fundamental outline of the book, with the result that it is well integrated-not a random collection of articles. Recent events in China, Palestine, India, Indonesia, Japan and many other parts of the globe lend a special interest to the subject at this time, but this is not a book on current events. It takes a larger view, and is a study of religion in its widest connotations, as a potent force in history and as a meaningful influence in the world today. Originally published in 1946. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
