Baby's First Encyclopedia-Ingela P. Arrhenius 2020-05 It's soft! It's warm! It's cold! It's in the air! Explore the familiar world in imaginative new ways in this stylish board book from the celebrated illustrator Ingela P. Arrhenius. What do a phone and a hammer have in common? Would it help if a fire engine, a trumpet and a crying baby joined the crowd? Noisy! With her trademark sense of whimsy and her bold, retro illustration, Ingela P. Arrhenius delights young children as well as design lovers, as she looks at the everyday world through imaginative common themes. Flowers, a new book and a freshly bathed baby all smell great, but a skunk, old fish bones and a baby in need of a change? Not so good! Whether up in the air, in the water or things to be found at Home Sweet Home, readers are invited to take a playful tour of the world around them to discover the way that things are alike, and how they are wonderfully unique.

First How Things Work Encyclopedia-DK 2019-07-04 All the most important science topics for kids, from magnets and sound waves to flight and search engines, are simply explained in this fun and informative illustrated STEM book for children studying KS1 and KS2 subjects. First How Things Work Encyclopedia covers everything children aged 5-9 need to know. What

makes rockets go? How does electricity work? Why do we sometimes see rainbows in the sky? This book follows the curriculum for Key Stages 1 and 2 and provides a strong foundation for science and STEM learning through the rest of the school years. This is the perfect homework help ebook to support children as they begin to learn about the inner workings of the world around them. It introduces exciting areas of science that will get kids hooked on learning about how things work, including levers, light bulbs, engines, and roller-coasters. This book sits in DK's popular First Reference series, which is perfect for kids who want to explore the world around them.

My First Encyclopedia of British Wildlife- Richard McGinlay 2017-08 A supersized natural history book packed with fantastic facts and detailed pictures, perfect for sharing.

Philosophy A Visual Encyclopedia-DK 2020-11-10 The perfect book for young readers looking to explore some of life's biggest questions. Thousands of years ago, ancient philosophers asked some important questions: "What is real?", "What is the point of my existence?", "Why is there evil in the world?", and "What can I know?" These questions have gone on to spark passionate debates about our existence and how we understand the world around us. In this engaging and accessible introduction to philosophy, readers aged 11+ will be introduced to a variety of philosophical ideas through the teachings of Plato, Confucius, Simone de Beauvoir, and many more. Vibrant, reader-friendly illustrations bring the history of ideas and thinking to life, and provide topics for reflection and debate. With biographies of the most influential philosophers from around the world, young readers will explore the questions that have been fundamental to the development of scientific study, logical thinking, religious beliefs, freedom in society, and much more. Thought experiments peppered throughout will help to connect readers with the theories presented so they can apply them to their own lives.
