Sharing Your Faith With a Hindu-Madasamy Thirumalai 2002-08-01 While the Hindu population is growing rapidly in the United States, most American Christians don't know enough about Hinduism to effectively present Christ to this group. The author, an Indian now living and teaching in a Bible college in the United States, helps readers understand the types of Hinduism they're likely to encounter, tips and methods to reach out to Hindu friends, and suggests answers to Hindu concerns about Christianity. The book also can be used by missionaries in India and Asian countries.

My Hindu Faith and Periscope-Satish C. Bhatnagar 2012-11 Every author believes that his or her book is meant for everyone. In this respect, however, I am the biggest beneficiary. In the process of writing these reflections for over ten years, and lately compiling and editing them, I have

finally understood my faith deeply. Consequently, confidence that I lacked about Hinduism during my adult years has been replaced with pride in graying years! At times, it has taken me to such a height that in a few reflections, I have propounded a thesis that India will be a true secular country only when it will be constitutionally a Hindu state. The practice of secularism in India since 1947 has been reduced to anti-Hinduism and Hindu bashing—paradoxically more so by Hindus than by non-Hindus. It is making India porous for attacks by the terrorists, who are both homegrown and foreign-based. History is repeating itself! The Hindus remain totally divided in half a dozen political parties. A sterling lesson of India's history is that traders, preachers, and persecuted humanity of every foreign faith were permitted, sheltered, and welcomed by the Hindu kings whose kingdoms stretched from the coasts of Malabar in Kerala to Kuchh in Gujarat to Karachi in Sindh—starting more than one thousand years ago. Doesn't it make pristine Hinduism akin to humanism? What an incredible journey of this realization to dawn after nearly six decades!

My Health, My Faith, My Culture-Sue Timmins 2012 Every patient, whatever their cultural background and religious affiliation, is entitled to receive healthcare that is sensitive, appropriate and person-centred. In the UK today, there are people from many different minority groups. There are also members of the host population who follow religions other than Christianity, either from birth or personal choice. The patient's chosen or birth faith should always play an integral part in their care. This helpful guide enables healthcare practitioners to rise to the challenge of providing culturally sensitive services by giving them an understanding of patients' varying potential requirements and how to meet them.

Morphing My Faith-Rayol J. Augustus 2017-08-26 With a plethora of temples, churches and mosques all over the country, it is obvious that religion is alive and thriving in the Indian sub-continent. Religion is integral to Indian identity and spirituality. Every Indian has multiple identities such as caste, class, religion and region. Political groups try to capitalize this for their own gain. Inculturation has been the Church's way of evangelizing

since her very beginning as she moved from her Jewish background into global settings. Today the Church faces a greater challenge as she moves into a multicultural digital world. Due to significant political and theological developments, the Indian church has been suffering an identity crisis. Catholics in India are debating the wisdom of this "inculturation" - whether it is right or not to fuse Roman Catholicism with Hindu culture. When the Vatican advocated that the Church should move with the times while suppressing unchanging Catholic doctrine, many Catholics participated in these changes. Many of the clergy and the laity, out of obedience to the supreme Pontiff and eagerness for change, did not question the Vatican II counsel. Some feel this devalued and allowed the organized storming of the Catholic faith - allowing heresies to take deep root in defiance of God's commandments! Many theologians are trying to convince us that Christianity in India has inherited an undesirable Western ambience and must realize her genuine identity. This inculturation effort involves a transformation of Catholic theology to provide greater spiritual accommodation for indigenous Indian religions and to dispel the notion that Christianity is the only true faith. If inculturation now means denying the exclusivity of Christianity, equating Christ with Hindu and Muslim deities, asserting that all religions have equal validity, and in some cases even abandoning Christian theology to discover higher forms of spirituality in other religions, then is it acceptable to Catholics? If Catholic leaders can give up reading the Bible, meditate on the Ramayana and the Bhagavad Gita for inspiration, and consider Krishna "a genuine revelation of God's grace and love," then why are they calling themselves Catholics or Christians? If we look at the practices in the Catholic Church in India today, we can understand why resistance has been building among the laity against the effort of the theologians and many clergy to Indianize the Catholic faith. Most of us "old school" Catholics were raised to worship in a particular way, and now it is being radically altered. We are being told that our religious claims have been exaggerated. So why is Christianity being tailored for the Hindus, who don't want to practice it, instead of for the Catholics who do? We are in a spiritual battle rather than a cultural or informational warfare. Unless we redefine our spirituality, we will go nowhere. Indians are wise and only a wise Church can serve them. How can we get back to our old traditions of faith in a modern non-Catholic or even a non-Christian environment? What answers do we have for our Hindu friends when they accuse Christians of doing things that are misleading Hindus?

"Morphing My Faith" is all about inculturation in the Catholic Church in India. Not everything is wrong and we should welcome all that is good. I do not want to get back into a cocoon, but I still draw my strength from our traditions. It is our legacy, it is what keeps us going. We may accept the Vatican's guidelines, but do we have to go overboard? The fact is that there is a tremendous difference between drawing from a faith tradition and blending faith traditions. When we look at what we have in the Catholic Church in India today, can we say that we are spirituality thriving even if we are starting to morph the way we worship in the predominantly Hindu environment? I hope and pray that we are. We are at the crossroads of our faith and I pray that we are not walking on religious quicksand.

Hindu Selves in a Modern World-Maya Warriar 2004-11-10 This book explores devotional Hinduism in a modern context of high consumerism and revolutionised communications. It focuses on a fast-growing and high-profile contemporary Hindu guru faith originating in India and attracting a transnational following. The organisation is led by a vastly popular female guru, Mata Amritanandamayi, whom devotees worship as an avatar and a healer of the ills of the contemporary world. By drawing upon multi-sited ethnographic fieldwork among the mata's primarily urban, educated 'middle class' Indian devotees, the author provides crucial insights into new trends in popular Hinduism in a post-colonial and rapidly modernising Indian setting.

My Journey to Faith-Gautham Jayachandran 2017-01-19 The word 'journey' is a common metaphor used to describe our time here on earth. Everyone's journey of life is unique and it can change direction, at any time, for any reason, by our own choice or by conditions imposed upon us. This booklet is about one quite ordinary life journey - mine - a dominant feature of which is a journey to faith in God. I was brought up in India as a god-fearing Hindu mainly because of the influence my mother's religious practices had on me. But my life as a Hindu radically changed direction

when I was confronted by the God of the Bible. I respectfully discuss my experiences both as a Hindu and as a Christian and present my reasons for the change of spiritual direction in my life. I hope you find this booklet an encouragement in your own journey of life.

My Picture of Free India-Mahatma Gandhi 1965

My Religion-M. K. GANDHI 101-01-01 Gandhiji was born a Hindu. But his Hinduism was his own. It had its roots firm in ancient Hinduism, but it grew and developed in the light of his contact with other religions, more especially Christianity, as will be seen from Section Two of this volume. He sought to drink at the spring of all religions, and therefore he felt that he belonged to every religion. And yet, if he had to have a label, the label he preferred and which was his not only by right of birth but also intrinsically, was Hinduism, the religion of his forefathers.

Homo Fidei-Kuk-Won Bae 2003 A renowned Islamicist and historian of religion, Wilfred Cantwell Smith is one of the most important contemporary voices in the study of religion. This book critically examines the idea of faith in Smith's writings and explores the relevance of his conception of faith for the future study of religion. Smith's distinctive notion of faith calls forth a new religious anthropology of homo fidei or the «human as faith-ing.» The idea of faith is, in short, a generative concept that implies a new and potentially revolutionary methodological approach to the study of religion. Special attention is paid to the implications of Smith's ideas for the phenomenology of religion and the postmodern age.
