**Treasury of Greek Mythology: Classic Stories of Gods, Goddesses, Heroes & Monsters (Stories & Poems)**-Donna Jo Napoli 2017-09-20 School Library Journal Best Books of 2011 Eureka! Silver Honor Books—California Reading Association Capitol Choices 2012 list of Noteworthy Titles for Children and Teens 2012 Notable Children's Books—ALSC The new National Geographic Treasury of Greek Mythology offers timeless stories of Greek myths in a beautiful new volume. Brought to life with lyrical text by award-winning author Donna Jo Napoli and stunning artwork by award-winning illustrator Christina Balit, the tales of gods and goddesses such as Zeus, Aphrodite, Apollo, and Athena and heroes and monsters such as Helen of Troy, Perseus, and Medusa will fascinate and engage children's imaginations. National Geographic completes the book with embellishments of each story; sidebars for each god, goddess, hero, and monster link the myths to constellations, geography, history, and culture to help young readers connect the stories to real life events, people, and places. A family tree and a “cast of characters” profile page help make relationships between the characters clear, and a mapping feature adds to the fun and fascination. Resource notes and ample back matter directing readers to more information round out this luminous book. Sure to dazzle all those intrigued with the fantastic tales of Greek mythology and enchant new readers, this vibrant book will soon become a family keepsake. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

**Weird But True!**-National Geographic Society (U.S.) 2012 Presents more than one hundred fifty stories of stupid criminals and the crimes they committed, detailing how they eventually got caught, and provides information on strange food crimes, wacky laws, and animal crimes.

**5,000 Awesome Facts (about Everything!)** 2-National Geographic Society (U.S.) 2014 Provides five thousand facts about everything from water parks and hair to manners and fossils.

**Just Hierarchy**-Daniel Bell 2020-03-03 A trenchant defense of hierarchy in different spheres of our lives, from the personal to the political All complex and large-scale societies are organized along certain hierarchies, but the concept of hierarchy has become almost taboo in the modern world. Just Hierarchy contends that this stigma is a mistake. In fact, as Daniel Bell and Wang Pei show, it is neither possible nor advisable to do away with social hierarchies. Drawing their arguments from Chinese thought and culture as well as other philosophies and traditions, Bell and Wang ask which forms of hierarchy are justified and how these can serve morally desirable goals. They look at ways of promoting just forms of hierarchy while minimizing the influence of unjust ones, such as those based on race, sex, or caste. Which hierarchical relations are morally justified and why? Bell and Wang argue that it depends on the nature of the social relation and context. Different hierarchical principles ought to govern different kinds of social relations: what justifies hierarchy among intimates is different from what justifies hierarchy among citizens, countries, humans and animals, and humans and intelligent machines. Morally justified hierarchies can and should govern different spheres of our social lives, though these will be very different from the unjust hierarchies that have governed us in the past. A vigorous, systematic defense of hierarchy in the modern world, Just Hierarchy examines how hierarchical social relations can have a useful purpose, not only in personal domains but also in larger political realms.

**100 Facts on Ancient Egypt**-Jane Walker 2006 Presents brief facts about life in Ancient Egypt.

**Building Resilient Neighbourhoods in Singapore**-Chan-Hoong Leong 2019-03-28 This book examines how institutional and environmental features in neighbourhoods can contribute to social resilience, highlighting the related socio-demographic issues, as well as the infrastructure, planning, design and policies issues. It is divided into three themes - infrastructure, planning, and community. Infrastructure examines how physical features such as parks and street patterns influence neighborliness and resilience, while planning studies how urban design enhances social interactions. Lastly, community discusses policies that can forge social bonds, either through racial integration, grassroots activities, or social service. Overall, the book combines research and empirical work with scholarly models of resilience and governance philosophy, focusing on Singapore’s urban planning and social policies.

**DK Eyewitness Guides**-Steve Pollock 1998-10-01 Integrating words and pictures, this is a family reference book on ecology structured so that the individual themes of each spread make up a complete visual story and a self-contained module. On every spread there is a specially shot colour photograph of objects shown in real-life close-up detail.

**National Geographic Kids Infopedia 2021**-National Geographic Kids 2020-05-07

**Globalization and the Singapore Curriculum**-Zongyi Deng 2013-11-27 This volume provides a multi-faceted and critical analysis of the Singapore curriculum in relation to globalization. First, it details reform initiatives established by the Singapore government to meet the challenges posed by globalization. Next, Globalization and the Singapore Curriculum presents how these reforms have been translated into programs, school subjects and operational frameworks and then examines, in turn, how well these have been implemented in schools and classrooms across the country. Through this examination, the book reveals how the initiatives, together with

their curricular translation and classroom enactment, reflect on the one hand global features and tendencies and, on the other, distinct national traditions, concerns and practices. It brings to light a set of issues, problems and challenges that not only concern policymakers, educators and reformers in Singapore but also those in other countries as well. Written by curriculum scholars, policy analysts, researchers and teacher educators, Globalization and the Singapore Curriculum offers an up-to-date reference for postgraduate students, scholars and researchers in the areas of curriculum and instruction, comparative education, educational sociology, educational policy and leadership in Singapore, the Asia Pacific region and beyond. It also offers a vital contribution to the story of modern education around the globe: providing international students, scholars and researchers valuable insights into curriculum and curriculum reform for the 21st century.

**Knowledge Management in Libraries and Organizations**-Leda Bultrini 2015-12-18 The management of knowledge created in an organization not only enables reuse of knowledge, but also adds value to the organization itself. Preventing duplication of intellectual effort, it saves economic and human resources, leading to the creation of new information. This book gathers the wisdom of knowledge managers and researchers in the context of the library and will be a valuable reference source for all libraries.

**NG Kids Infopedia**- 2016-05-12

Ever wondered in which country you would find the fastest roller-coaster in the world? Or wanted to know the terrifying size of the biggest shark known to man? Ever wondered who could be the biggest selling musical artist of all time? This is the book for you. Top 10 of Everything 2018 is divided into genres including Epic Structures, Outer Space, Forces of Nature and Humankind, and includes lists, charts and tables to break down the details of each amazing fact. Packed full of photographs and incredible information, this is the perfect book for anyone with a curious mind and an insatiable appetite for facts, stats and trivia.

**Handbook of Religion and the Asian City**-Peter van der Veer 2015-05-19 "Handbook of Religion and the Asian City highlights the creative and innovative role of urban aspirations in Asian world cities. It points out that urban politics and governance are often about religious boundaries and processions--in short, that public religion is politics. The essays show how projects of secularism come up against projects and ambitions of a religious nature, a particular form of contestation that takes the city as its public arena. Asian cities are sites of speculation, not only for those who invest in real estate but also for those who look for housing, for employment, and for salvation. In its potential and actual mobility, the sacred creates social space in which they all can meet. Handbook of Religion and the Asian City makes the comparative case that one cannot study the historical patterns of urbanization in Asia without paying attention to the role of religion in urban aspirations"--Provided by publisher.

**Plant and Human Health, Volume 1**-Munir Ozturk 2018-10-02 Early anthropological evidence for plant use as medicine is 60,000 years old as reported from the Neanderthal grave in Iraq. The importance of plants as medicine is further supported by archeological evidence from Asia and the Middle East. Today, around 1.4 billion people in South Asia alone have no access to modern health care, and rely instead on traditional medicine to alleviate various symptoms. On a global basis, approximately 50 to 80 thousand plant species are used either natively or as pharmaceutical derivatives for life-threatening conditions that include diabetes, hypertension and cancers. As the demand for plant-based medicine rises, there is an unmet need to investigate the quality, safety and efficacy of these herbs by the “scientific methods”. Current research on drug discovery from medicinal plants involves a multifaceted approach combining botanical, phytochemical, analytical, and molecular techniques. For instance, high throughput robotic screens have been developed by industry; it is now possible to carry out 50,000 tests per day in the search for compounds, which act on a key enzyme or a subset of receptors. This and other bioassays thus offer hope that one may eventually identify compounds for treating a variety of diseases or conditions. However, drug development from natural products is not without its problems. Frequent challenges encountered include the procurement of raw materials, the selection and implementation of appropriate high-throughput bioassays, and the scaling-up of preparative procedures. Research scientists should therefore arm themselves with the right tools and knowledge in order to harness the vast potentials of plant-based therapeutics. The main objective of Plant and Human Health is to serve as a comprehensive guide for this endeavor. Volume 1 highlights how humans from specific areas or cultures use indigenous plants. Despite technological developments, herbal drugs still occupy a preferential place in a majority of the population in the third world and have slowly taken roots as alternative medicine in the West. The integration of modern science with traditional uses of herbal drugs is important for our understanding of this ethnobotanical relationship. Volume 2 deals with the phytochemical and molecular characterization of herbal medicine. Specifically, it focusses on the secondary metabolic compounds, which afford protection against diseases. Lastly, Volume 3 discusses the physiological mechanisms by which the active ingredients of medicinal plants serve to improve human health. Together this three-volume collection intends to bridge the gap for herbalists, traditional and modern medical practitioners, and students and researchers in botany and horticulture.

**Managing Diversity in Singapore**-Mathew Mathews 2016-05-11 Singapore society is increasingly becoming diverse. During the first few decades of nation building, policies were designed to homogenise aspects of Singaporean society while enshrining principles to allow restricted amounts of diversity. Fast forward to the present, and fifty years after independence, the number of areas where diversity is profoundly apparent remains copious, and its manifestations more varied. This book provides an updated account on the tensions posed by diversity in Singapore and how this is being managed, primarily by the state through policies and programmes but also by communities who attempt to negotiate these tensions. Such an enquiry is crucial especially at this juncture when the nation is finding ways to embrace the different forms of diversity brought about through external impetuses, as well as manage internal reactions from the various communities. The book chapters highlight important considerations if Singapore’s diversity management strategies will hold promise for the future. Contents:Introduction:Diversity in Singapore: Historical Foundations and Current Realities (Mathew Mathews)Manifestations and Management of Multicultural Singapore — Race, Language and Religion:Navigating Disconnects and Divides in Singapore’s Cultural Diversity (Lai Ah Eng and Mathew Mathews)Singlish as Style: Implications for Language Policy (Lionel Wee Hock Ann)Keeping Harmony in Singapore: An Examination of the Inter-racial and Religious Confidence Circles (IRCCs) in Singapore (Mathew Mathews and Danielle Hong)The Management of New Religious Movements in Singapore (Shane Pereira)New Tensions when Global Meets Local: Social Class, Liveable Space, Bicultural Ideologies, and New Media Forms:Two Stories on Class in Singapore: Diversity or Division? (Tan Ern Ser and Tan Min Wei)Which Class and What Squeezes? Relationships with Well-being, National Pride and Inequality (Ho Kong Weng)Creating a Liveable City for Whom? A Critical Examination of Singapore’s Recent Urban Transformation (Pow Choon-Piew)Are We There Yet? A Review of the Bicultural Studies Programme (Chiang Wai Fong and Low Yen Yen)Regulating the Big and Micro Screens: Managing Censorship in Films and YouTube in Singapore (Liew Kai Khiun)Diversity in the Cross Sections of Society: Workplace, Family, and the Armed Forces:Transmigrants and the Flow of Human Capital: Wither Integration? (Faizal Bin Yahya)Singapore Families: Stability and Diversity in Challenging Times (Stella R Quah)National Service: The Holy Grail in the Management of Social Diversity (Leong Chan-Hoong, Yang Wai Wai and Jerrold Hong)Conclusion (Chiang Wai Fong)About the Contributors/Index Readership: Academics, researchers and students studying Singapore society, public policy and sociology; general readers and professionals interested in diversity management.

**Ultimate Bugopedia**-Darylene Murawski 2013 An introduction to the hidden worlds of popular insects profiles their habits, habitats, and diets while providing thematic spreads that share additional historical and geographical fun facts.

**Southeast Asia and the ASEAN Economic Community**-Roderick Macdonald 2019-09-03 This book is an introduction to the ASEAN Economic Community (AEC), the economic community founded by Southeast Asian nations. It provides both economic profiles of the member nations and an explanation of the Community itself. This book also discusses the impact of China on the AEC. The book is a starting point for research into the region or into any member country, whether for academic or for business purposes. With over 170 tables and figures as well as an abundance of historical facts, the book offers data-based insights.

**National Geographic Kids Infopedia 2014**- 2013 In the lively style of NG Kids magazine, this colourful page-turner excites young people about their world and everything in it. Packed with fun-to-browse features, it is also filled with useful reference material, homework help developed by educators, and the kind of quirky facts that kids adore.

**National Geographic Kids My First Atlas of the World**-National Geographic Kids 2018-07-10 Introduce preschoolers to the wonders of the world with this beginner atlas, created with the map experts at National Geographic. Simple, colorful maps, bold pictures, and accessible text present basic geography, continent by continent, to spark kids' curiosity about the planet we inhabit. They'll learn elementary mapping skills and concepts such as the difference between a globe and a map. They'll learn answers to questions, like what is a compass rose? What features make up the land? Where is the ocean? And what are the countries where people (and animals) live? Reviewed by geography and early childhood consultants, this delightful atlas makes our world accessible to even the most junior explorers.

**A City in Blue and Green**-Peter G. Rowe 2019-08-30 This open access book highlights Singapore’s development into a city in which water and greenery, along with associated environmental, technical, social and political aspects have been harnessed and cultivated into a liveable sustainable way of life. It is also a story about a unique and thoroughgoing approach to large-scale and potentially transferable water sustainability, within largely urbanized circumstances, which can be achieved, along with complementary roles of environmental conservation, ecology, public open-space management and the greening of buildings, together with infrastructural improvements.

**Sonic Modernities in the Malay World**- 2014-01-09 Sonic Modernities analyses the interplay between the production of popular music, shifting ideas of the modern and, in its aftermath, processes of social differentiation in twentieth-century Southeast Asia.
