The Planets-Gail Gibbons 2018-01-16 A nonfiction favorite for more than twenty years, The Planets has been updated to include some of the latest discoveries in space exploration. From the burning surface of Venus to the freezing darkness of Neptune, Gail Gibbons takes children on a tour of our planetary neighbors—which are very different from each other in size, shape, orbit, and even weather. Since its original publication in 1993, The Planets has been a home and classroom staple for introducing our solar system to the youngest readers. With her signature blend of clear, bright illustrations and accessible text, Gail Gibbons takes readers on a tour of our planetary neighbors, near and far. From the burning surface of Venus to the freezing darkness of Neptune, the bodies in our solar system are named, described, and illustrated in clear, well-labeled spreads that give a strong sense of shape and scale to our skies. Each entry is full of intriguing details about their composition, behavior, and moons.

Cutest Animals on the Planet-National Geographic Kids 2020-11-24 Meet the world's most adorable animals and learn fun stuff about them in this aww-some first book in a brand-new series from National Geographic Kids. Whether you like mammals, aquatic creatures, insects, birds, amphibians, or reptiles, this browsable book contains kids' favorite animals that would ALL be contenders for the grand prize in a cute competition. Big photos pair with upbeat descriptions that highlight each critter's crazy cool skills and unique behaviors. This adorable book showcases popular animals such as hedgehogs and pandas as well as unusual species such as tapirs, kakapos, and pangolins. Special features include a head-to-head cute-off, sure to keep readers amused and informed. Perfect for curious tweens, animal lovers, and future veterinarians alike.

Bats-Elizabeth Carney 2017-10-02 National Geographic Primary Readers pair magnificent National Geographic photographs with engaging text by skilled authors to help your child learn to read. Developed by education experts, this series of books for beginner readers is spread across four levels: Early Reader, Becoming Fluent, Becoming Independent and Independent Reader.

What Is a Planet?-Jeff Mapua 2014-07-15 The wide range of planets in our small solar system alone is remarkable--giant planets; dwarf planets; rocky, watery, and gaseous planets; frigid planets and blazing-hot planets; and planets surrounded by rings or multiple moons. Then travel beyond our solar system and begin exploring the so-called exoplanets, and the variety is even more dazzling. Even readers who think they know everything about planets will find much to intrigue, excite, and thrill them here, including fascinating facts, the latest findings, and eye-popping, full-color, high-definition photos and explanatory graphics. A must-have foundational resource for every burgeoning space scientist.

Ants-Melissa Stewart 2010 Describes different types of ants and their behavior.

Meteors-Melissa Stewart 2018-08-01 Blast off on a trip to discover the fascinating world of meteors. In this image-packed book, kids will learn all about these objects hurtling through space and into our atmosphere. Written in an easy-to-grasp style to encourage the scientists and explorers of tomorrow!

National Geographic Readers: Titanic-Melissa Stewart 2012-07-24 Get kids reading with cool information about the subjects that interest them the most. National Geographic Readers are high-interest, exciting, and easy to read. The latest in the series, Titanic is no exception. Just in time for the 100th anniversary of the Olympic-class passenger liner's ill-fated journey, this title is replete with brilliant photographs and exclusive in-depth coverage including Bob Ballard's 1985 discovery. Brought to you only as National Geographic can, the industrial feat of the powerful ship, the tragedy of the wreckage, and the fascinating stories of survival bring the historical significance of the Titanic to a new audience in this level 3 reader.

Coral Reefs-Kristin Rattini 2015 Introduces coral reefs, including how they are made, where they are in the world, and why the world's coral reefs are in danger.

Mars-Elizabeth Carney 2017-10-02 National Geographic Primary Readers is a high-interest series of beginning reading books that have been developed in consultation with education experts. The books pair magnificent National Geographic photographs with lively text by skilled children's book authors across four reading levels. Level 4: Independent reader Perfect for kids who are reading on their own with ease and are ready for more challenging vocabulary with varied sentence structures. They are ideal for readers of White and Lime books. Discover the fascinating world of Mars in this colourful book packed with amazing imagery. In this inviting and entertaining format, kids will learn about the newest information on Mars, the Mars Rover, and our ongoing exploration of the Red Planet. This level 4 reader is written in an easy-to-grasp style to encourage the scientists and explorers of tomorrow!

National Geographic Little Kids First Big Book of Birds-Catherine D. Hughes 2016-07-12 This adorable reference introduces young readers to birds of all kinds: big and small, flyers and swimmers, colorful and plain. They'll find backyard favorites, such as robins and cardinals and be introduced to more unique species that inhabit rain forests and deserts around the world. Bird behaviors kids can relate to, including singing, dancing, building, swimming, and diving, reveal fascinating insights into the avian world. More than 100 colorful photos are paired with profiles of each bird, along with facts about the creatures' sizes, diets, homes, and more. This charming book will quickly become a favorite at storytime, bedtime, and any other time.

Animals That Change Color-Libby Romero 2020-06 Packed with engaging photos, this leveled reader dives into the amazing world of animals that change their appearance based on environment, the need to blend in to hunt or stay safe, and even their mood! Kids will learn all about the how and why of these amazing animal transformations.

Storms-Miriam Busch Goin 2018-01-01 There are many kinds of storms, and they can be scary, but this overview helps readers understand how and why they happen—and shows the importance of weather in different parts of the world and out-of-this world on other planets!

Great Migrations-Elizabeth Carney 2010 Examines several animals and their great migrations, ranging in size from the army ant to the sperm whale.

Sea Turtles-Laura Marsh 2011 Presents the life of sea turtles, including where they travel, how they build nests, and what they eat.

Mars-Elizabeth Carney 2016 Describes the fourth planet in the solar system, including its climate conditions, the history of human exploration of Mars, and if the planet ever sustained life.

National Geographic Readers: Wildfires-Kathy Furgang 2015-07-14
Learn all about wildfires—how they happen, why they're important, and when they're dangerous—in this fascinating level 3 reader. It's sure to ignite your interest, with color photographs, interesting facts, and more.

National Geographic Readers: Cheetahs-Laura Marsh 2012-07-24
Adorably cute and amazingly fast, the cheetah is a perennial favorite among kids. This National Geographic Reader will delight kids with beautiful photographs and mind-boggling facts about this majestic and mysterious cat. Did you know a cheetah can go from 0 to 60 mph in less than 3 seconds? True to the National Geographic Kids' style and trusted reputation, snack size bites of information provide easily digestible learning that fulfills both the reader's curiosity and sense of achievement. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

National Geographic Readers: Albert Einstein-Libby Romero 2016-09-13
Explore one of the most recognized scientists in the world with this biography of physicist Albert Einstein. Kids will learn about his life, achievements, and the challenges he faced along the way. The level 3 text provides accessible, yet wide-ranging, information for independent readers.

National Geographic Readers: Pandas-Anne Schreiber 2012-07-24
The whole world loves panda bears. Everyone loves to watch them play, climb, cuddle, and chew. But careful, they can scratch too—just look at that tree! Pandas live in wild places very far away, and they are the STAR ATTRACTIONS of every zoo that keeps them safe and well, all over the world. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.
