The author, uniquely among historians of the OED, is also a practising lexicographer with nearly thirty years' experience of working on the Dictionary. He has drawn on a wide range of sources-including previously unexamined archival material and eyewitness testimony-to create a detailed history of the project. The book explores the cultural background from which the idea of a comprehensive historical dictionary of English emerged, the lengthy struggles to bring this concept to fruition, and the development of the book from the appearance of the first printed fascicle in 1884 to the launching of the Dictionary as an online database in 2000 and beyond. It also examines the evolution of the lexicographers' working methods, and provides much information about the people-many of them remarkable individuals-who have contributed to the project over the last century and a half.

The Persistent Objector Rule in International Law-James A. Green 2016-03-03 The persistent objector rule is said to provide states with an 'escape hatch' from the otherwise universal binding force of customary

international law. It provides that if a state persistently objects to a newly emerging norm of customary international law during the formation of that norm, then the objecting state is exempt from the norm once it crystallises into law. The conceptual role of the rule may be interpreted as straightforward: to preserve the fundamentalist positivist notion that any norm of international law can only bind a state that has consented to be bound by it. In reality, however, numerous unanswered questions exist about the way that it works in practice. Through focused analysis of state practice, this monograph provides a detailed understanding of how the rule emerged and operates, how it should be conceptualised, and what its implications are for the binding nature of customary international law. It argues that the persistent objector rule ultimately has an important role to play in the mixture of consent and consensus that underpins international law.
