33 Revolutions Per Minute-Dorian Lynskey 2011-03-03 Why 33? Partly because that's the number of rotations performed by a vinyl album in one minute, and partly because it takes a lot of songs to tell a story which spans seven decades and five continents - to capture the colour and variety of this shape-shifting genre. This is not a list book, rather each of the 33 songs offers a way into a subject, an artist, an era or an idea. The book feels vital, in both senses of the word: necessary and alive. It captures some of the energy that is generated when musicians take risks, and when they fail, those endeavours leave the popular culture a little richer and more challenging. Contrary to the frequently voiced idea that pop and politics are awkward bedfellows, it argues that protest music is pop, in all its blazing, cussed glory.

Going Viral-Dahlia Schweitzer 2018-03-09 Outbreak narratives have proliferated for the past quarter century, and now they have reached epidemic proportions. From 28 Days Later to 24 to The Walking Dead, movies, TV shows, and books are filled with zombie viruses, bioengineered plagues, and disease-ravaged bands of survivors. Even news reports indulge in thrilling scenarios about potential global pandemics like SARS and Ebola. Why have outbreak narratives infected our public discourse, and how have they affected the way Americans view the world? In Going Viral, Dahlia Schweitzer probes outbreak narratives in film, television, and a variety of other media, putting them in conversation with rhetoric from government authorities and news organizations that have capitalized on public fears about our changing world. She identifies three distinct types of outbreak narrative, each corresponding to a specific contemporary anxiety: globalization, terrorism, and the end of civilization. Schweitzer considers how these fears, stoked by both fictional outbreak narratives and official sources, have influenced the ways Americans relate to their neighbors, perceive foreigners, and regard social institutions. Looking at everything from I Am Legend to The X Files to World War Z, this book examines how outbreak narratives both excite and horrify us, conjuring our nightmares while letting us indulge in fantasies about fighting infected Others. Going Viral thus raises provocative questions about the cost of public paranoia and the power brokers who profit from it. The Lazarus Impact-Vincent Todarello 2013-03-12 A meteor shower pellets the earth with strange debris on Christmas Eve. The US power grid fails due to the impact of a large meteorite. The dust plume causes severe illness and death as it blows east across America. As a result the government quarantines the entire northeast. Military personnel wearing gas masks patrol the edges of the affected area, preventing anyone from crossing. But when the dead start coming back to life and eating the living, the US braces itself for a full-on zombie outbreak that no military barricade can keep contained. The Lazarus Impact is a fast paced, high intensity, peri-apocalyptic zombie action thriller that traces the stories of eight unique and diverse characters as they travel through the madness, trying to head west past the quarantine to safety... or so they think. Wolf, an extreme survivalist television personality, is the first one on the scene when the meteors hit, filming the damage. Dr. Vogel, a former infectious disease lab rat turned physician, is on a mission to get to the CDC to give them samples of what he thinks might be the basis for a cure. Willy, an old, hardened, Vietnam War veteran suffering from PTSD, witnesses the outbreak as it ramps up in intensity at the hospital where he works as a janitor. Sheryl, a suburban housewife, learns of the dust when she gets a call from a neighbor that her boys are sick on the football field. Marcus, a reformed prison inmate with a violent past, escapes with a band of unscrupulous marauders during a riot. Michael and Amy, a bickering couple from NYC, struggle to get out of Manhattan despite the bridges and tunnels being barricaded and locked down. And Brandon, an awkward teenager with an obsession for horror comics and video games, hides out in his parents Cold War era bunker until he runs out of fuel. When their paths intersect they must help and rely on each other for survival. The plan is to move west, past the quarantine, and make their way to a secure compound where people have been preparing for doomsday for decades. But the nightmares they face on the way west are only a shadow of the dangers they may encounter on the other side of the quarantine, where the American people have taken up arms to defend their new but porous borders. Will any survive the journey? Is it even worth it?

Dying to Live-Kim Paffenroth 2007-04-01 Jonah Caine, a lone survivor in a zombie-infested world, struggles to understand the apocalypse in which he lives. Unable to find a moral or sane reason for the horror that surrounds him, he is overwhelmed by violence and insignificance. After wandering for months, Jonah’s lonely existence dramatically changes when he discovers a group of survivors. Living in a museum-turned-compound, they are led jointly by Jack, an ever-practical and efficient military man, and Milton, a mysterious, quizzical prophet who holds a strange power over the dead. Both leaders share Jonah’s anguish over the brutality of their world, as well as his hope for its beauty. Together with others, they build a community that reestablishes an island of order and humanity surrounded by relentless ghouls. But this newfound peace is short-lived, as Jonah and his band of refugees clash with another group of survivors who remind them that the undead are not the only-nor the most grotesque-horrors they must face.

Going Viral-Dahlia Schweitzer 2018-03-09 Outbreak narratives have proliferated for the past quarter century, and now they have reached epidemic proportions. From 28 Days Later to 24 to The Walking Dead, movies, TV shows, and books are filled with zombie viruses, bioengineered plagues, and disease-ravaged bands of survivors. Even news reports indulge in thrilling scenarios about potential global pandemics like SARS and Ebola. Why have outbreak narratives infected our public discourse, and how have they affected the way Americans view the world? In Going Viral, Dahlia Schweitzer probes outbreak narratives in film, television, and a variety of other media, putting them in conversation with rhetoric from government authorities and news organizations that have capitalized on public fears about our changing world. She identifies three distinct types of outbreak narrative, each corresponding to a specific contemporary anxiety: globalization, terrorism, and the end of civilization. Schweitzer considers how these fears, stoked by both fictional outbreak narratives and official sources, have influenced the ways Americans relate to their neighbors, perceive foreigners, and regard social institutions. Looking at everything from I Am Legend to The X Files to World War Z, this book examines how outbreak narratives both excite and horrify us, conjuring our nightmares while letting us indulge in fantasies about fighting infected Others. Going Viral thus raises provocative questions about the cost of public paranoia and the power brokers who profit from it. The Lazarus Impact-Vincent Todarello 2013-03-12 A meteor shower pellets the earth with strange debris on Christmas Eve. The US power grid fails due to the impact of a large meteorite. The dust plume causes severe illness and death as it blows east across America. As a result the government quarantines the entire northeast. Military personnel wearing gas masks patrol the edges of the affected area, preventing anyone from crossing. But when the dead start coming back to life and eating the living, the US braces itself for a full-on zombie outbreak that no military barricade can keep contained. The Lazarus Impact is a fast paced, high intensity, peri-apocalyptic zombie action thriller that traces the stories of eight unique and diverse characters as they travel through the madness, trying to head west past the quarantine to safety... or so they think. Wolf, an extreme survivalist television personality, is the first one on the scene when the meteors hit, filming the damage. Dr. Vogel, a former infectious disease lab rat turned physician, is on a mission to get to the CDC to give them samples of what he thinks might be the basis for a cure. Willy, an old, hardened, Vietnam War veteran suffering from PTSD, witnesses the outbreak as it ramps up in intensity at the hospital where he works as a janitor. Sheryl, a suburban housewife, learns of the dust when she gets a call from a neighbor that her boys are sick on the football field. Marcus, a reformed prison inmate with a violent past, escapes with a band of unscrupulous marauders during a riot. Michael and Amy, a bickering couple from NYC, struggle to get out of Manhattan despite the bridges and tunnels being barricaded and locked down. And Brandon, an awkward teenager with an obsession for horror comics and video games, hides out in his parents Cold War era bunker until he runs out of fuel. When their paths intersect they must help and rely on each other for survival. The plan is to move west, past the quarantine, and make their way to a secure compound where people have been preparing for doomsday for decades. But the nightmares they face on the way west are only a shadow of the dangers they may encounter on the other side of the quarantine, where the American people have taken up arms to defend their new but porous borders. Will any survive the journey? Is it even worth it?
