**Unplugged Play: Grade School**-Bobbi Conner 2020-08-18 Screen-free. Battery-free. Pure fun. When Unplugged Play was first published as a parent-friendly encyclopedia of games and activities for all ages, Richard Louv, author of Last Child in the Woods, called it "A terrific prescription for much of what ails children and parents today." Now Unplugged Playgets a fresh and appealing new life as three separate, brightly designed books, each targeted to a specific age group. The need, of course, is significantly more pressing than when the book was originally published--screens are far more ubiquitous, causing parents even greater concern about their overuse--and these timeless, imaginative, easy-to-implement games are here to the rescue. Each volume includes games to play alone and games to play with siblings and friends and parents. Games to play indoors and games for outside. There are craft projects, music activities, guessing games--the kinds of truly fun activities designed to stretch the imagination, spark creativity, build strong bodies, forge friendships, and explore the real world. The opposite of hunkering down in front of an addictive screen.

There's L for the Lion proudly prowling along, and M for the Mouse scurrying inside his wheel. And it all culminates in the largest Scanimation image yet: Z, for Zoo, where all the animals gather to play. Each page is a marvel that brings animals, along with one shining star, to life with art that literally moves. It's impossible not to flip the page, and flip it again, and again, and again.

Scanimation is a state-of-the-art animation process that creates the illusion of movement in each picture. In terms kids can relate to, it's like a video without a screen. ABC Animals presents the alphabet as it's never been seen before. In a romping, stomping journey from A to Z, watch the Alligator snap, the Bats swooping, the Camel trot. There's L for the Lion proudly prowling along, and M for the Mouse scurrying inside his wheel. And it all culminates in the largest Scanimation image yet: Z, for Zoo, where all the animals gather to play. Each page is a marvel that brings animals, along with one shining star, to life with art that literally moves. It's impossible not to flip the page, and flip it again, and again, and again.
