The One Track Mind-Deems Taylor 2009-01 Deems Taylor wrote in 1953, "In a Paris bookshop about twenty-five years ago, I ran across a volume entitled "Anthologie Libertine, ou La Fleur Francaise de la Satire Galante," a collection of upwards of two hundred pieces of light verse devoted mainly to that subject so dear to the Gallic heart, l'amour. . . . the majority were written during the sixteenth, seventeenth, and eighteenth centuries." "Those were the times of Henry IV, of Louis XIV and Louis XV; of Watteau, Boucher, and Fragonard; of Pompadour and du Barry. Society centered about Fontainebleau and Versailles. It was an era not much more dissolute

than our own, but very much more outspoken. Marriages were generally contracted for any but sentimental reasons, and it was taken almost for granted that husbands and wives would cheerfully cuckold one another. "The love poems of the day might be low on morality, but they abounded in imagination and good humor. Their day ended when nineteenth-century romanticism wiped the smile from the face of l'amour.. . I have chosen what seemed to me the best fifty-odd out of the two hundred. The translations are as literal as I could make them, and for those who would like to check their degree of literalness, every English version accompanies the French original—including the archaic French spelling."

Samsung Galaxy S10 & S10 Plus-Clinton Morgan 2019-09-15 Samsung Galaxy S10 2019 Ultimate User's Guide with 99+1 Coolest Tips and Tricks to Master Your Samsung Galaxy. The Galaxy S10e has a nice design that is more loyal to fingerprints, at least the mother-of-pearl option is, compared to the black Galaxy S9. A good camera, good 4K front-facing shooting, but there aren't enough viewing angles for the front-facing video, basically only you are placed in the frame, not in the surroundings. The fingerprint

scanner is conveniently located, I like it more than the location on the back of the Smartphone. The Galaxy S10e is fast and responsive, lasts longer for autonomy than the Galaxy S9, but the battery still can't handle the cold. I like that Samsung continues to leave the headphone jack, while many manufacturers get rid of it, so it's still more convenient for me to use wired headphones. The Galaxy S10e has less mAh in the battery, less RAM, fewer cameras, the fingerprint scanner is located in a different place and the screen is without curved sides, unlike the Galaxy S10 Plus. But in most cases, the Smartphone performs the same functions as the Galaxy S10 Plus. Galaxy S10e attracts with its compactness. Do not underestimate this criterion when making a choice. I have been using Samsung Smartphones for a long time and always choose the smallest version from the S-series so that it fits comfortably in my hand and pocket. In addition to a powerful device with a good camera, the Galaxy S series has many thoughtful details, not only in design, but also in control. But that comfortable management is perhaps what captivates the most. Smartphones are constantly competing among themselves, which has more pixels, mAh, gigabytes of memory, higher Snapdragon, frameless screen, but in addition to these criteria, Samsung collects individual chips into one Smartphone: the Galaxy S10e - comfortable, cozy, and maybe more than you think. Pay attention to the details, these are what create the image that ultimately remains in our subconscious. In this book, you'll learn the following about this awesome lineup of phones: .
