Atlas of the World- 2013

High Cost of Free Parking- Donald Shoup 2021-02-25 Off-street parking requirements are devastating American cities. So says the author in this no-holds-barred treatise on the way parking should be. Free parking, the author argues, has contributed to auto dependence, rapid urban sprawl, extravagant energy use, and a host of other problems. Planners mandate free parking to alleviate congestion, but end up distorting transportation

choices, debasing urban design, damaging the economy, and degrading the environment. Ubiquitous free parking helps explain why our cities sprawl on a scale fit more for cars than for people, and why American motor vehicles now consume one-eighth of the world's total oil production. But it doesn't have to be this way. The author proposes new ways for cities to regulate parking, namely, charge fair market prices for curb parking, use the resulting revenue to pay for services in the neighborhoods that generate it, and remove zoning requirements for off-street parking.

Childrens World Atlas-

Stephanie Turnbull
2014-06-01 A comprehensive world atlas with 60 pages of maps showing land cover, cities and towns, boundaries, rivers and lakes and places of interest. Each continent is introduced with several pages of key facts, satellite views and information on major geographical features. Endmatter includes a gazetteer of states, geography

quiz and time zones chart. A classic Usborne reference book, fully updated and now available in paperback.

Collins First Atlas-Collins Maps 2014-12-04 Collins First Atlas is a fun, vibrant and clear starter atlas for 4-6 year olds which provides an introduction to basic geographical and atlas vocabulary. This first atlas introduces the younger pupil to photographs and mapping of a local area. From this beginning the atlas gradually maps through regional, national, continental and world regions with global views of the wider world. Carefully selected map labels highlight certain countries or features which can be easily identified to illustrate the concept of mapping as it becomes more complex. All maps are supported with short informative sentences which use a basic geographical vocabulary.
