Goliath's Head-Alan Fleishman 2010-02 GOLIATH'S HEAD tells of a search for courage and hope amidst crushing oppression. Avi Schneider is a Jewish boy growing up in Russia on the eve of early-twentieth-century revolution.

He is nine years old when he meets his own personal devil, Viktor Askinov, a brutal youngster who relishes tormenting Jews. In the following years, Avi is the object of his tormentor's obsession. Fourteen years later in 1905 the Tsar instigates riots - pogroms - against the poor, teeming Jewish villages. Now a husband and father, Avi takes to the barricades to defend his village from the mob coming to kill the men, rape the women, and burn down his village. Armed, he again faces Viktor Askinov, who is leading the mob. But he has been warned that if he kills Viktor Askinov, he puts his beautiful young wife Sara and newborn son Itzhak in deadly peril. Avi must decide this night what he stands for. Is it survival at any cost, for himself and those he loves? Or is it righteous vengeance for his people?

Franklyn-Richard Cliff 2015-12-17 Franklyn was born into a gritty north of England town. His expected path through life would have him live out his years in the manner of that town's baseline existence. But it wasn't to be. Perhaps he was pre-selected to break rank so that bigger dreams could be

fulfilled. Whatever the prime force may have been, he was to know a different life. Perhaps, too, the corridors of our own reality are flimsier than we believe! On the other side of the wall may lie another path. As Franklyn himself discovers, a perceived reality can be as real as reality itself.

The Passover Haggadah-Vanessa L. Ochs 2020-03-03 "This telling of the life of the Haggadah, probably the most beloved of books that Jews own, chronicles its recalibrations over time. It moves from its early sources in the Bible and rabbinic literature; to the years it was a handwritten manuscript; to its life as an illuminated book in the middle ages; to its emergence as mass-produced printed book and later, as an artist's book; to its iterations in the twentieth century in America and Israel, including those using emerging technologies of our day. It is the story of a liturgical text came about to fulfill a biblical injunction to fathers to tell the story of the Exodus from Egypt to their children (literally, to their sons): "And you shall tell your son on that day, 'It is because of what the Lord did for me when I went free from Egypt'" (Exodus 13:8). Despite significant flaws in the text that have occasioned thousands of revisions, it remains well and alive because it allows its users to transmit the story of Exodus as if it happened to them. With a Haggadah in hand at a Passover seder meal, the text kindles the memory of belonging to a people who knew slavery and then liberation and enlivens empathy. An engagement with the Haggadah, inevitably leaves one feeling responsible for helping others to achieve their own liberation"--

The Tragedy of Stealing-Dr D. K. Olukoya 2014-10-01 Whether you take something that is not yours, or you withhold the belongings of others, whether you evade prompt payment of debts or you extort from people. It is all stealing. This book highlights the reasons why people steal, the different kinds of stealing, and the consequences of stealing. It goes on to give us the prescriptions for overcoming stealing and what to do in order to come out of the cage of the spirit of stealing.

God's Own the Genesis of Mathematical Story-telling-Nma (Beautiful) Jacob 2016-01-25 In the beginning God created woman in His own like image, blessed her to go out to be fruitful and multiply, to replenish the earth, subdue it, and have dominion over everything on it, Genesis 1: 27-28. God's Own: The Genesis of Mathematical Story-Telling is about the creativity of God (The Absolute Infinite) as He is reflected in women. It is about the power of The Absolute Infinite to perform signs and wonders reflected in mathematical symbols, patterns, numbers, and graphs. It is a book on His word according to John 1:1, in the beginning was the word, the word was with God, and the word was God. God's Own: The Genesis of Mathematical Story-Telling is a mathematical, cultural, and spiritual story of Dr. Nkechi (God's own) Madonna Adeleine Agwu, aka Nma (Beautiful) Jacob. Dr. Agwu is an African female leader in mathematics and statistics education. Her life trajectory includes experiences of displacement, homelessness, living in refugee camps, single-parenting of a child with hearing and speech needs, and many other issues that from all indications could have set her up for failure, but for God's divine intervention. God's Own: The Genesis of Mathematical Story-Telling is about Dr. Agwu's journey as an ethno-mathematician to her present scholarship in African culture and women's stories in science, technology, engineering, and mathematics (STEM) related fields. It is about how she found her identity as a mathematical story-teller of members of the Organization of Nigerian Women in Agricultural Research and Development (NiWARD). It is a story about the beauty, strength, courage, and nurturing spirit of women. In this era of globalization, African people face the urgent need to foster world-wide education about their mathematics, science, technology, history and culture (Gerdes, 1998). All groups of people have made significant contributions to the development of mathematics. However, the contributions of Africans other than those related to the early beginnings of algebra and geometry in ancient Egypt, are still highly unacknowledged in the history of mathematics (Lumpkin, 1997). This is partly due to our oral

traditions, slavery, colonialism, neo-colonialism, globalization, and the fact that our indigenous mathematics, scientific and technological knowledge as a people is often shrouded in our spirituality. This notwithstanding, efforts must be made to document the mathematical contributions of Africans to enrich the curriculum in a multicultural and interdisciplinary way by providing a wide repertoire of examples of mathematical concepts illustrated from the African context. **God's Own: The Genesis of Mathematical Story-Telling** does this. In particular, it highlights the indigenous mathematical knowledge and cultural beauty of the Ndebele people of Southern Africa. **God's Own: The Genesis of Mathematical Story-Telling** is a story about creativity, innovation, and adaptation. It is a story about necessity as the mother of innovation. It is about the philosophy of "do what you can, from where you are, with what you have." It is a story about Nma (Beautiful) Jacob, the survivor, overcomer, successor and faithful servant of God. It is a story that The Absolute Infinite is ever present in our lives shaping our mathematical genomes. Emmanuel - God is with us! His Angels are around us, protecting and guiding us!

Faith. Love. Struggle-Nate (Prahgress) 2011-04-20 This book is a testament to the fact that dreams do come true and that anything is possible when our faith is in God. We must always have the ability to see the light at the end of the tunnel. In my eyes, that light represents perfect faith. Although we may never be perfectly faithful, I feel the different moments of love and struggle in our lives bring us closer to that faith. "Faith.Love.Struggle." is comprised of poems dating back to 2002 up until the present. Each poem gives insight into my life and shows how times of love and struggle have made me more faithful while molding me into the man I am today.

The Passover Story-Sarah Mazor 2014-11-12 On Passover, Jews everywhere celebrate the redemption of the Israelites from Egyptian slavery. Moses, the leader of the Israelites, was empowered and commanded by God to demand that Pharaoh, the Egyptian ruler, let the Jewish people go. Pharaoh refused at first but then... "The Passover Story: A Festival of Freedom and Liberty" relates the unfolding of the events in ancient Egypt in lovely rhymes accompanied by gorgeous illustrations.

Tarjuman-ul- Quran-B. Sheik B.Sheik Ali 2017-04-29 Islam is pure monotheism unsupported by any kind of symbolism or forms of appeal to the emotions of the common man. Its two basic principles are unity of God and unity of man. It says the word of God is Quran and the work of God is nature. This book deals with the first seven verses of Quran regarded as soul and spirit, sum and substance of Quran. The main concepts elaborated here are Divinity, Creativity, Peace, Mercy, Love, Justice and Guidance. This work is from the pen of Maulana Abul Kalam Azad whom Bertrand Russell has characterized as the second wisest man on earth after Socrates. He has surveyed here the spiritual domain of all great religions of the world to bring home the sublimity of God. He calls this Surah Fateha (Introductory Chapter) of seven verses as Mother of Quran, the invaluable treasure, the key to entire knowledge and the obligatory part of Namaz (Prayer). It is the beginning and end of Quran. Its first verse, "In the name of God, Most Gracious, Most Merciful", is repeated in all the 114 Surahs. Its importance lies in the fact that it stresses right concept of God, belief in resurrection, prayer for righteous path and humble submission for mercy and benevolence. Quran says, "If you count for favours of God, never will you be able to number them." In short, this Surah confirms God is the Creator and Cherisher of the entire universe and all living beings. It prompts man not to belong to any race or nation or group but to be a part of world brotherhood. It guides man to observe laws of nature where nothing exists for itself, and everything is for everything else. Dr.B. Sheil Ali Former Vice-Chancellor of Mangalore & Goa Universities

Reading makes you realise just how adaptable the story is to the modern day. 'd recommend this lovely book to anyone" ***** "Wonderful

story written in verse suitable for all ages. The story was more meaningful each time I read it and the wonderful illustrations really added to it"

Heart Seasons-Dianna Donnelly 2016-12-16 Have you ever felt like God was whispering to you? I have! One sunny day in the spring of 2012, I was sitting in my favorite comfy chair, writing in my journal. From out of the blue, I began experiencing a sensation I had never felt before. I felt a calming warmth in my heart and all of a sudden, I started writing down ideas on the blank pages in my notebook, one after the other, that just came to me. I was getting inspiration to tell a story from my personal journals. The first thing I wrote down was its title, "Heart Seasons." It would be a fictional story based on different seasons from my own real life and each season of the novel would be defined by the colors of the rainbow. Come join me on my "Journey of Miracles." Lilly Marie Eastbrook Rhodes A theme that runs throughout "Heart Seasons" is Lily's love of nutritious foods and cooking. After a spontaneous life threatening medical crisis suffered by the author, a new vision for future books was revealed. She has discovered two new life passions, in addition to writing, cooking and baking, and excitingly, they are food photography and blogging. Coming in the future, using a combination of her passions, Dianna Donnelly has already begun preparing to create and publish a series of recipe books. Following her love of healthy wholesome foods, and a healthy happy lifestyle, they will be named "Real Food Meals Recipes." Until her first recipe book is published, please visit her website to view step-by-step instructions along with color pictures and recipe cards for printing favorites. Israel-Jim Zanotti 2014-03-18 Since 1948, successive U.S. Presidents and many Members of Congress have demonstrated a commitment to Israel's security and to maintaining close U.S.-Israel defense, diplomatic, and economic cooperation. U.S. and Israeli leaders have developed close relations based on common perceptions of shared democratic values and religious affinities. U.S. policy makers often seek to determine how events and U.S. policy choices in the Middle East may affect Israel's security, and Congress provides active oversight of executive branch dealings with Israel and other actors in the region. Some analysts criticize what they perceive as U.S. support for Israel without sufficient scrutiny of its actions or their implications for U.S. Interests. Israel is a leading recipient of U.S. foreign aid and is a frequent purchaser of major U.S. weapons systems. The United States and Israel maintain close security cooperation— predicated on a U.S. commitment and legal requirement to maintain Israel's "qualitative military edge" over other countries in its region. The two countries signed a free trade agreement in 1985, and the United States is Israel's largest trading partner. Israel has many regional security concerns. By criticizing the international interim agreement on Iran's nuclear program that went into effect in January 2014, Prime Minister Netanyahu may seek to give Israel a voice in an ongoing negotiating process in which it does not directly participate. In addition to concerns over Iran, Israel's perceptions of security around its borders have changed since early 2011 as several surrounding Arab countries have experienced political upheaval. Israel has shown particular concern about threats from Hezbollah and other non-state groups in ungoverned or minimally governed areas in Syria, Lebanon, and Egypt's Sinai Peninsula, as well as from Hamas and other Palestinian militants in the Gaza Strip. Recent exploitation of offshore natural gas raise the prospect of a more energy-independent future. Israel's demographic profile has evolved in a way that appears to be affecting its political orientation, with various leaders vying for the public's support by interweaving ideology with ethnic, religious, socioeconomic, and national security considerations.

Miriam's Cup-Fran Manushkin 1998 A Jewish mother preparing for Passover tells her young children the story of Miriam, the Biblical woman who prophesied the birth of Moses.

The Academic Entrepreneur-John Paul Tabakian 2013-04-17 Public funding for community colleges has been steadily declining since the peak of funding in the 1970s. Surviving the constant threats of budgetary cuts has been a key motivating factor for community colleges to embrace academic entrepreneurialism. I examined the academic entrepreneurial pursuits of one California Community College (CCC) to understand those factors that encourage community college faculty to pursue academic entrepreneurial solutions. The purpose of this qualitative study is to examine factors that encourage academic entrepreneurialism among community college faculty. Specifically, I investigated three categories of factors that influence academic entrepreneurialism: individual, institutional, and environmental. Individual factors include demographic and background characteristics, including age, race, gender, academic training, and previous professional careers. Institutional factors include program offerings available for students, institutional reputation and history, institutional policies and practices, and academic and administrative leadership. Environmental factors relate to the peer influences of a campus that encourages academic entrepreneurial behavior of faculty. The significance of this study lies in the identification of factors that encourage academic entrepreneurialism among community college faculty, ultimately supporting institutional efforts to augment funding. I investigated individual, institutional, and environmental factors that encourage academic entrepreneurialism among community college faculty. Accordingly, the research questions identify key factors that encourage academic entrepreneurialism among community college faculty and explain how they facilitate faculty to engage in academic entrepreneurialism. The research questions that I evaluated in this study are: What individual, institutional, and environmental factors influence community college faculty to engage in academic entrepreneurialism? What is the relationship between faculty background, institutional, and environmental characteristics and the frequency and quality of academic entrepreneurialism among community

college faculty? I found that all three factors are essential elements of academic entrepreneurialism among community college faculty. Individual, institutional, and environmental factors consist of people who are all pursuing their self-interest. This follows the tenets of rational choice theory as the study finds that self-interest influences faculty academic entrepreneurialism. The study argues that changes to institutional policies are the key determining factor to encourage academic entrepreneurialism among community college faculty. Institutional policies determine how a college functions and understands the interrelationship between individual, institutional, and environmental factors. Encouraging academic entrepreneurialism among community college faculty requires institutional policies that focus on the fundamental issue: recruiting, retaining, and evaluating community college faculty. The study offers suggestions for how to influence institutional policies that in turn encourage faculty academic entrepreneurialism by addressing the following areas: faculty job descriptions, faculty job announcements, evaluating faculty levels of academic entrepreneurialism, and offering entrepreneurial faculty financial incentives.

The Story of Passover-Rabbi Francis Barry Silberg 2017-02-07 For thousands of years, Jewish people have gathered during Passover to celebrate God's love and protection. This board book explains this ancient event in a manner so simple that even the youngest child will understand. Focusing on Moses, the story tells of the plagues, Pharaoh's reactions, and finally, the Passover itself and the exodus of the Hebrews from Egypt. Parents can use this book as a way to introduce children to the concept and events of Passover.

Agafya-Anton Chekhov 2013-12 Agafya is a short story by Anton Pavlovich Chekhov detailing a late night encounter between an intelligent but lazy village dropout and the peasant wife of a signalman. Anton Pavlovich Chekhov, (29 January 1860 - 15 July 1904) was a Russian physician, dramatist and author who is considered to be among the greatest writers of short stories in history. His career as a dramatist produced four classics and his best short stories are held in high esteem by writers and critics. Chekhov practised as a medical doctor throughout most of his literary

career: "Medicine is my lawful wife", he once said, "and literature is my mistress." Chekhov renounced the theatre after the disastrous reception of *The Seagull* in 1896, but the play was revived to acclaim in 1898 by Constantin Stanislavski's Moscow Art Theatre, which subsequently also produced Chekhov's *Uncle Vanya* and premiered his last two plays, *Three Sisters* and *The Cherry Orchard*. These four works present a challenge to the acting ensemble as well as to audiences, because in place of conventional action Chekhov offers a "theatre of mood" and a "submerged life in the text." Chekhov had at first written stories only for financial gain, but as his artistic ambition grew, he made formal innovations which have influenced the evolution of the modern short story. His originality consists in an early use of the stream-of-consciousness technique, later adopted by James Joyce and other modernists, combined with a disavowal of the moral finality of traditional story structure. He made no apologies for the difficulties this posed to readers, insisting that the role of an artist was to ask questions, not to answer them. Always modest, Chekhov could hardly have imagined the extent of his posthumous reputation. The ovations for the play, *The Cherry Orchard*, in the year of his death showed him how high he had risen in the affection of the Russian public-by then he was second in literary celebrity only to Tolstoy, who outlived him by six years-but after his death, Chekhov's fame soon spread further afield. Constance Garnett's translations won him an English-language readership and the admiration of writers such as James Joyce, Virginia Woolf, and Katherine Mansfield. The issues surrounding the close similarities between Mansfield's 1910 story "The Child Who Was Tired" and Chekhov's "Sleepy" are summarised in William H. New's *Reading Mansfield and Metaphors of Reform* The Russian critic D.S. Mirsky, who lived in England, explained Chekhov's popularity in that country by his "unusually complete rejection of what we may call the heroic values." In Russia itself, Chekhov's drama fell out of fashion after the revolution but was later adapted to the Soviet agenda, with the character Lopakhin, for example, reinvented as a hero of the new order, taking an axe to the cherry orchard. One of the first non-Russians to praise Chekhov's plays was George Bernard Shaw, who subtitled his *Heartbreak House* "A Fantasia in the Russian Manner on English Themes" and noted similarities between the predicament of the British landed class and that of their Russian counterparts as depicted by Chekhov: "the same nice people, the same utter futility."

The Accidental Public Servant-Nasir Ahmed El-Rufai 2013 This is a story of Nigeria, told from the inside. After a successful career in the private sector, Nasir El-Rufai rose to the top ranks of Nigeria's political hierarchy, serving first as the privatization czar at the Bureau for Public Enterprises and then as Minister of the Federal Capital Territory of Abuja under former President Olesegun Obasanjo. In this tell-all memoir, El-Rufai reflects on a life in public service to Nigeria, the enormous challenges faced by the country, and what can be done while calling on a new generation of leaders to take the country back from the brink of destruction. The shocking revelations disclosed by El-Rufai about the formation of the current leadership and the actions of prominent statesmen make this memoir required reading for anyone seeking to understand the dynamics of power politics in Africa's most populous nation.

APPENDIX A NOTES ACKNOWLEDGEMENTS "Have you ever felt you had to hide the true you, the anxious, hurting and fearful you, even from God? Jennifer L. Lane's Faith Adventures shows us in her vulnerability before both God and her readers that: 'Our God isn't shallow. Our God doesn't call us shallow, and He knows that sometimes with a phone call, a run stoplight, a routine blood test, or a sonogram, we can be thrown into the deep end.' Through both her experiences and Scriptures, Jennifer reassures us that: 'He is there in the deep end with us.' She shows us that it is precisely in the moments we choose to face our humanity - our anxiety, hurt and fear - leaning into the arms of our mighty God to hold, soothe and protect us, that our greatest faith adventures are birthed. Let Jennifer inspire, challenge and encourage you to step into the exciting Faith Adventures awaiting you. Pick up a copy of her book or gift it to someone you would love to bless this Christmas. You won't be disappointed." - Anna Smit, Christian blogger sharing her journey into God's love at www.joyofthespiritwithin.wordpress.com

Spiritual Approach to Climate Change-Kaushik Bhagawati 2015-11-04 The concept of cause and effect of climate change is generally misunderstood. The initial cause resulted into a chain reaction with each effect in turn becomes cause of another set of effects. Under such circumstances we mistakenly assume that degree of cause and effect is same, and also that physical effect might have some physical cause. In fact, it is the internal factor i.e. our perception that influenced our choice of behavior that triggers the external physical effects. With time we redefined our relationship with our environment from symbiotic to parasitic. We isolate ourselves from our environment and artificially fabricating the natural phenomenon. We fail to see that we are the source of all the causes and we also become the major target of the amplified multifaceted effects. Spirituality is the only remedy that reunites us with our environment, Earth and universe. Spirituality governs our outlook and thought process. Spirituality goes beyond our reasoning and analytic capacity to find the truth behind all reflections, illusions and shadows. Spirituality is all about knowing God and doing God's will, abiding in the words of Jesus. With

spirituality we can always find meaning and ways in difficult situations. Spiritual outlook inspire us to live in harmony with nature and everything around us as neighbor.

Techniques in Differentiation-S.T. Simms 2015-03-23 The discovery of calculus in the seventeenth century by Isaac Newton and Gottfried Leibniz, helped usher in a revolution in mathematics and science that had a profound and far-reaching effect on the world. Calculus provided a powerful tool that enabled the fledgling science of physics to break new ground in our understanding of the workings of the natural universe. Indeed, calculus is virtually synonymous with physics as it is the mathematics of infinitesimal change. As the world about us appears to be a continuity punctuated by discrete things, then calculus is vital in understanding the behavior of a quantitative change relative to another, from one instant to the next. The intellectual endeavor of mathematics can be thought of as a tree, with calculus one of its boughs. This bough consisting of two major branches, one entwined about the other-differentiation and integration. This book focuses on the discovery, methods and applications of the mathematics of differentiation. Differential calculus, as opposed to integral calculus, considers variable quantitative relationships to one another in the form of tangents. Techniques in Differentiation is based on material written for high school calculus students. However, the book is suitable for any elementary calculus student at either high school or university level. It aims to give calculus students a deeper understanding of the subject. This is achieved by, in part, providing more historical background and development than is offered by most calculus textbooks. A common failing of many technical textbooks is to skim over mathematical workings that get to some result.

Mathematical and scientific textbooks typically assume the student has the required mathematical skill to provide the missing details for themselves. This is an ongoing major complaint of students and can make the study of a mathematics textbook particularly frustrating. The author of Techniques in Differentiation in contrast, provides detailed line-by-line working in proofs and examples. Another complaint of mathematics students is textbooks that provide too few exercises, or overly simple questions with which to practice. The author provides a large number of exercise questions, ranging in level of difficulty from easy to challenging. In addition, Techniques in Differentiation includes the answers to all the questions in the exercises at the end of each chapter. It is particularly irksome when a textbook does not provide answers to exercises-students find it frustrating when they are unable to see if they have adequately mastered the concepts and techniques outlined in a mathematics book. The dedicated student will find in calculus a powerful analytical tool with applications in the physical sciences, engineering and technology. And like all areas of mathematics, it can also be appreciated for its own inherent beauty. Techniques in Differentiation will provide mathematics students with the technical skills with which to explore and appreciate calculus and its applications.
