2009-10-13 Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to

create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you

think like rich people think and do what rich people do, chances are you'll get rich too!

Marigold-Peter Dickinson 1999 Billy Mayerl, as pianist-composer-celebrity-educator, was one of the most brilliant figures in British music from the 1920s to the 1950s. Born in London, he became known in childhood as the Wonder Boy Pianist playing for silent films and was captivated by American popular music. With the Savoy Havana Band, he made an immediate impact on the earliest days of broadcasting and was known as the pianist with the lightning fingers. Mayerl's own compositions, in both quality and quantity, are the most significant contribution to the genre of novelty piano, which succeeded ragtime and overlapped with early jazz. The pace of these dazzling, cinematic sketches in rag form perfectly encapsulates the hedonism of the jazz age. But Mayerl also wrote more contemplative

pieces belonging to the English pastoral tradition: he was never just the composer of Marigold. Between the wars he became a familiar figure on the Music Halls, playing two pianos at once and taking requests, and he composed for musical comedies involving some of the best-known British stars. As if this frantic pace was not enough, he started his Billy Mayerl School in 1926 to teach syncopated piano playing and there were branches across England and abroad. This book which contains a full CD of Mayerl's historic playing is the first detailed study of his work and should ensure a permanent place for Mayerl and his music.
