Memoirs of a Time Traveler-Doug Molitor
2017-12-17 "You couldn't ask for a finer guide to the future -- or the past -- than Doug Molitor." -- Larry Gelbart (A Funny Thing Happened on the Way to the Forum, M*A*S*H, Tootsie) In this fast-paced, thrilling journey through time, archaeologist David Preston comes into possession of a baseball supposedly signed by the legendary Ty Cobb in 1908, thanks to Ariyl Moro and her mysterious companion, Jon Ludlo. Except the ball tests out to be an impossible paradox. It was signed with a ballpoint pen (not invented until 1938) using ink that's several centuries older. But then, Ariyl and Ludlo aren't who they claim to be either. Ariyl, a voluptuous 6-foot-3 beauty, turns out to be a tourist from a 22nd century paradise where time travel is the latest craze. Unbeknownst to her, however, her

traveling companion, Ludlo, is a psychopath whose thefts are starting to alter history. In a world where even small changes in the timeline can cause catastrophic consequences, Ludlo's actions may completely destroy the future. To stop Ludlo, David and Ariyl must solve a mystery involving Bronze Age swordsmen, modern-day Nazis, a steampunk world, Albert Einstein, some highly skeptical Founding Fathers, and a Golden Age Hollywood where the murder of a beloved movie star will spell doom for civilization.

The Last Time Traveler-Aaron J. Ethridge
2017-02-04 Robert is a time traveler. In point of fact, he's the last time traveler. He managed to snag that impressive title because when he comes from has no future. This, as you can imagine, makes it much easier to be the last of any number of things. The current lack of future is due to the mess all his predecessors, the previous time travelers, made of things. It's Robert's job to repair the damage they did in the hopes that this will jump-start time. Fortunately

he's assembled the most brilliant team in history to do the job. At his disposal are the best hackers, mechanics, and doctors who ever lived. He and his elite band have to do their best to un-steal ancient artifacts, un-kidnap people of importance, and un-sell advanced technologies while doing as little damage to the timelines as possible. The Last Time Traveler is a rather unique sci-fi romantic comedy. In fact, it's more like a comedy romance sci-fi if you put things in the correct order of importance. The humor is in some ways rather outlandish and draws on pop-culture a good bit. And all the romance is PG-13. If you're even the slightest bit curious read a few sample pages. By the third or fourth page you'll probably know whether this is your cup of tea or not. The style stands-out, no question. So, take a couple of minutes and read a few pages. You might just love it.

Elizabeth Crowens 2016-05-15 Sir Arthur Conan Doyle is obsessed with a legendary red book. Its peculiar stories have come to life, and rumors claim that it has rewritten its own endings. Convinced that possessing this book will help him write his ever-popular Sherlock Holmes stories, he takes on an unlikely partner, John Patrick Scott, known to most as a concert musician and paranormal investigator. Although in his humble opinion, Scott considers himself more of an ethereal archeologist and a time traveler professor. Together they explore lost worlds and excavate realms beyond the knowledge of historians when they go back in time to find it. Silent Meridian reveals the alternative histories of Conan Doyle, H.G. Wells, Houdini, Jung and other notable liuminaries in the secret diaries of a new kind of Doctor Watson, John Patrick Scott, in an X Files for the 19th century. -- Cover, page [4]

A Time Traveler's Theory of Relativity-Nicole Valentine 2019-10-01 He believes in science, but only magic can help his mom. Twelve-year-old Finn is used to people in his family disappearing. His twin sister, Faith, drowned when they were three years old. A few months ago, his mom abandoned him and his dad with no explanation. Finn clings to the concrete facts in his physics books—and to his best friend, Gabi—to ward off his sadness. But then his grandmother tells him a secret: the women in their family are Travelers, able to move back and forth in time. Finn's mom is trapped somewhere in the timeline, and she's left Finn a portal to find her. But to succeed, he'll have to put his trust in something bigger than logic.

Doomsday Book-Connie Willis 2012-11-08 For Kivrin Engle, preparing an on-site study of one of the deadliest eras in humanity's history was as simple as receiving inoculations against the diseases of the fourteenth century and inventing an alibi for a woman traveling alone. For her instructors in the twenty-first century, it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received. But a crisis strangely linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her. In a time of superstition and fear, Kivrin - barely of age herself - finds she has become an unlikely angel of hope during one of history's darkest hours. Winner of the Hugo Award 1993 Winner of the Nebula Award 1993 "A tour de force" - New York Times Book Review "Ambitious, finely detailed and compulsively readable" - Locus "It is a book that feels fundamentally true; it is a book to live in" - Washington Post

Confessions of a Time Traveler-Doug Molitor

2017-12-24 History's not what it used to be. Ariyl Moro, the gene-powered Amazon from 2109 A.D., drags David Preston, archaeologist, back to ancient times to help her fix some broken historical events. But after an epic night together, Ariyl vanishes, leaving David her Time Crystal . . . and a clue that might lead him back to her . . . in the camp of a Mongol warrior princess . . . or a harem in medieval Baghdad . . . or a monstrously mutated 1950s America. Sci-fi meets romantic comedy...with sword-swinging adventure! Note to readers: This book makes the assumption that climate change is not a hoax and anyone who thinks it is, is not qualified to be President. If you disagree, this is definitely not the droid you're looking for.

The Time Travel Tale of John Titor-John Titor
2003-01-01

The Time Thief-Linda Buckley-Archer
2008-06-16 What happens when a seventeenth-century bad guy has twenty-first-century technology? An accident with an antigravity machine catapulted Peter Schock and Kate Dyer back to 1763. A bungled rescue attempt leaves Peter stranded in the eighteenth century while a terrifying villain, the Tar Man, takes his place and explodes onto twenty-first-century London. Concerned about the potentially catastrophic

effects of time travel, the NASA scientists responsible for the situation question whether it is right to rescue Peter. Kate decides to take matters into her own hands, but things don't go as planned. Soon the physical effects of time travel begin to have a disturbing effect on her. Meanwhile, in our century, the Tar Man wreaks havoc in a city whose police force is powerless to stop him. Set against a backdrop of contemporary London and revolutionary France, *The Time Thief* is the sequel to the acclaimed *The Time Travelers*.

Psychology of Time Travel, a mind-bending, time-travel debut. In 1967, four female scientists worked together to build the world's first time machine. But just as they are about to debut their creation, one of them suffers a breakdown, putting the whole project—and future of time travel—in jeopardy. To protect their invention, one member is exiled from the team—erasing her contributions from history. Fifty years later, time travel is a big business. Twenty-something Ruby Rebello knows her beloved grandmother, Granny Bee, was one of the pioneers, though no one will tell her more. But when Bee receives a mysterious newspaper clipping from the future reporting the murder of an unidentified woman, Ruby becomes obsessed: could it be Bee? Who would want her dead? And most importantly of all: can her murder be stopped? Traversing the decades and told from alternating perspectives, The Psychology of Time Travel introduces a fabulous new voice in fiction and a new must-read for fans of speculative fiction and women's fiction alike.

were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

How to Invent Everything-Ryan North 2018-09-20 'How to Invent Everything' is such a cool book' -- Randall Munroe Get ready to make history better... on the second try. Imagine you

are stranded in the past (your time machine has broken) and the only way home is to rebuild civilization yourself. But you need to do it better and faster this time round. In this one amazing book, you will learn How to Invent Everything. Ryan North -- bestselling author, programmer and comic book legend -- provides all the science, engineering, mathematics, art, music, philosophy, facts and figures required for this challenge. Thanks to his detailed blueprint, humanity will mature quickly and efficiently - instead of spending 200,000 years stumbling around in the dark without language, not realising that tying a rock to a string would mean we could navigate the entire world. Or thinking disease was caused by weird smells. Fascinating and hilarious, How To Invent Everything is an epic, deeply researched history of the key technologies that made each stage of human history possible (from writing and farming to buttons and birth control) - and it's as entertaining as a great time-travel novel. So if you've ever secretly wondered if you could do history better yourself, now is your chance to

find out how.

A Time Travel Dialogue-John W. Carroll
2014-08-01 Is time travel just a confusing plot device deployed by science fiction authors and Hollywood filmmakers to amaze and amuse? Or might empirical data prompt a scientific hypothesis of time travel? Structured on a fascinating dialogue involving a distinguished physicist, Dr. Rufus, a physics graduate student and a computer scientist this book probes an experimentally supported hypothesis of backwards time travel - and in so doing addresses key metaphysical issues, such as causation, identity over time and free will. The setting is the Jefferson National Laboratory during a period of five days in 2010. Dr. Rufus's experimental search for the psi-lepton and the resulting intractable data spurs the discussion on time travel. She and her two colleagues are pushed by their observations to address the grandfather paradox and other puzzles about backwards causation, with attention also given to

causal loops, multi-dimensional time, and the prospect that only the present exists. Sensible solutions to the main puzzles emerge, ultimately advancing the case for time travel really being possible. A Time Travel Dialogue addresses the possibility of time travel, approaching familiar paradoxes in a rigorous, engaging, and fun manner. It follows in the long philosophical tradition of using dialogue to present philosophical ideas and arguments, but is groundbreaking in its use of the dialogue format to introduce readers to the metaphysics of time travel, and is also distinctive in its use of lab results to drive philosophical analysis. The discussion of data that might decide whether time is one-dimensional (one timeline) or multi-dimensional (branching time) is especially novel.

The Time Machine Did it-John Swartzwelder

2004

Kindred-Octavia E. Butler 2004-02-01 The visionary author's masterpiece pulls us—along with her Black female hero—through time to face the horrors of slavery and explore the impacts of racism, sexism, and white supremacy then and now. Dana, a modern black woman, is celebrating her twenty-sixth birthday with her new husband when she is snatched abruptly from her home in California and transported to the antebellum South. Rufus, the white son of a plantation owner, is drowning, and Dana has been summoned to save him. Dana is drawn back repeatedly through time to the slave quarters, and each time the stay grows longer, more arduous, and more dangerous until it is uncertain whether or not Dana's life will end, long before it has a chance to begin.
