Weird But True Animals-Benjamin Haydock 2017-03-06 Weird but True Animals: The Big Book of Weird and Wild Animals All over the world there are some crazy, weird animals. Some of them are deep in the ocean, others in the sky, and some of them might even be in your backyard! Many of these weird and wacky creatures have developed the most unusual ways to hide from predators, or catch their prey, and some are just plain crazy (we're not even sure why they are so weird!). In The Big Book of Weird and Wild Animals you will learn more about some of the world's weirdest animals. Each animal has its own weird rating to humans, but you can also be the judge. You'll learn some fun facts about each animal, and have the chance to complete our weird animal word search puzzle when you're done! The ideal companion for long car journeys, The Big Book of Weird and Wild Animals is illustrated with color photos and fascinating animal facts, making it the perfect gift for young animal lovers in your family.

When Lunch Fights Back-Rebecca L. Johnson 2020-08-01 Audisee® eBooks with Audio combine professional narration and sentence highlighting to engage reluctant readers! The octopus spies a nice, tasty mantis shrimp. It swims over for a closer look at the small creature. Then WHAM! the mantis shrimp strikes a nasty blow with its hammer-like forelimb. The octopus shrinks back, defeated. That wasn't such an easy meal after all . . . In nature, good defenses can mean the difference between surviving a predator's attack and becoming its lunch. Some animals rely on sharp teeth and claws or camouflage. But that's only the beginning. Meet creatures with some of the strangest defenses known to science. How strange? Hagfish that can instantaneously produce oodles of goeey, slippery slime; frogs that poke their own toe bones through their skin to create claws; young birds that shoot streams of stinking poop; and more.

Can Lightning Strike the Same Place Twice?Joanne Mattern 2017-08-01 If the groundhog sees its shadow, there will be six more weeks of winter. Moss grows only on the north side of a tree. No two snowflakes are alike. You may have heard these common sayings or beliefs before. But are they really true? Can they be proven using science? Let's investigate seventeen statements about Earth, weather, and the environment and find out which ones are right, which ones are wrong, and which ones still stump scientists! Find out whether all deserts are hot! Discover whether it's true that a ring around the Moon means rain or snow is on the way! See if you can tell the difference between fact and fiction with Is That a Fact?

The Gross Science of Germs All Around You-Carol Hand 2018-07-15 Kids love gross things, and germs are among the grossest. This engaging volume capitalizes on the grossness factor, while covering the science behind germs, what they are, where they are found, and how they cause diseases. It gives kids the information they need to stay clean and healthy without fearing germs. Readers will learn that most bacteria do not cause diseases, but provide us with food and medicines, and help maintain soil and other ecosystems. This book also cautions against

overkill of germs, which can lead to antibiotic resistance and super-bacteria.

Nubby's Story (the Dodo)-Aubre Andrus 2020-09 The true story of how one special dog beat the odds -- as seen on hit social media site The Dodo! When Nubby the boxer was born, there was something different about him. That's because Nubby was born without his two front legs. He was so small and so sick. The humans who rescued him weren't sure he would make it. But after a little while, Nubby started to get better. Soon, Nubby was well enough to try to walk. But without his front legs, Nubby had to scoot or hop from place to place. Nubby's family knew this one-of-a-kind pup would need a little extra help getting around. This inspiring true story teaches us that with a little love, some creativity, and a lot of hard work, special dogs like Nubby can overcome any obstacle!

Sharks Vs. Sloths-Julie Beer 2019 In one corner, swinging in ever so slowly, is the most relaxed guy himself: Sloth! And making a splash in the other corner is Shark, ready to sink her teeth into this competition! Get ready to rumble in this latest instalment of the funny face-off series! These two amazing animals bring their best game to this closely matched competition. At first glance, they might seem too different to duke out anything, but wait--you're in for a surprise! Readers have a ringside seat to view as they battle it out in 22 kooky and quirky categories, like Coolest Hangout, Weirdest Relatives, Best Smile, Biggest Appetite, and so much more. It's up to you to follow the action and decide who's the ultimate winner! A final spread devoted solely to conservation helps further National Geographic's core mission to save the planet. One thing we know is certain: You'll be a shark and sloth expert by the end of this epic showdown!
