**Under Earth / Under Water (Pod wodą / Pod  
ziemią**

“Pod ziemią / Pod wodą” is a two-sided

educational book. It has two horizontal covers joined by the spine. Readers from one side can discover secrets hidden below layers of Earth, and from the other side, curiosities flooded with water. In the middle of the book the two worlds meet with a spread dedicated to the Earth's core.

**Underwater Earth Limited**

Underwater Earth commenced work back in 2010 with a simple, single-minded vision - to reveal the ocean to the world. The ocean, representing over two-thirds of the world's surface area, critical to the planet's health and wealth, is out of sight and therefore out of mind. How can anyone love and care for something they cannot see and cannot understand.

**Google Underwater Street View —

**Submarine earthquake - Wikipedia**

A submarine, undersea, or underwater earthquake is an earthquake that occurs underwater at the bottom of a body of water, especially an ocean. They are the leading cause of tsunamis. The magnitude can be measured scientifically by the use of the moment magnitude scale and the intensity can be assigned using the Mercalli intensity scale. Understanding plate tectonics helps to explain the cause
