Organized to reflect the direction of recent scholarly research, this volume breaks with earlier texts on this subject by seeking to overcome a misleading dichotomy between an elite, intellectualist "modern" Hinduism and the rest of what has so often been misleadingly termed "traditional" or "popular" Hinduism.

Ethical Perceptions of World Religions- Karama Singha Rājū 2002

Hinduism-Nalini Rangan 2017 Hinduism is one of the world's oldest religions. It originated in the beliefs and practices of various civilizations and cultures that lived in the Indus River Valley more than 3,000 years ago. Hinduism is also one of the world's most complex and diverse religions, and its followers, known as Hindus, have a great variety of core beliefs and revere millions of different deities. Today, around 1 billion people follow Hinduism, making it the world's third-largest religion. Most Hindus live in India and Nepal. This book examines the origins and history of Hinduism, and explores its sacred texts—the Vedas, Upanishads, and other writings that include stories, hymns, poems, and rituals on which Hindus base their beliefs. The book also explores how beliefs differ among Hindu sects, and how the faith is practiced today. Understanding World Religions-Irving Hexham 2011-03-22 Globalization and high-speed communication put twenty-first century people in contact with adherents to a wide variety of world religions, but usually, valuable knowledge of these other traditions is limited at best. On the one hand, religious stereotypes abound, hampering a serious exploration of unfamiliar philosophies and practices. On the other hand, the popular idea that all religions lead to the same God or the same moral life fails to account for the distinctive origins and radically different teachings found across the world's many religions. *Understanding World Religions* presents religion as a complex and intriguing matrix of history, philosophy, culture, beliefs, and practices. Hexham believes that a certain degree of objectivity and critique is

inherent in the study of religion, and he guides readers in responsible ways of carrying this out. Of particular importance is Hexham's decision to explore African religions, which have frequently been absent from major religion texts. He surveys these in addition to varieties of Hinduism, Buddhism, Judaism, Christianity, and Islam.

Christianity and World Religions-Hans Küng 1993 Kung joins with three esteemed colleagues to address the question: "Can we break through the barriers of noncommunication, fear, and mistrust that separate the followers of the world's great religions?" What is Hinduism?-David Frawley 2018-10-18
What Is Hinduism? provides one of the most provocative, engaging and detailed examinations of this oldest religious and spiritual tradition in the world. Followed by over a billion people, including a great majority in India, Hinduism is the third largest religion in the world. The teachings of Yoga and Vedanta are followed by millions in every continent. Enriched with a profound pluralistic view, Hinduism emphasizes that the Truth is One but has many paths. Yet, despite its universality, Hinduism remains the most misunderstood of the world's major religions, partly because of its antiquity and the vast extent of its teachings. Acknowledging the importance of the religion and its growing influence globally, David Frawley has addressed the prime teachings of Hinduism, its role in India, its place in the information age and has compiled an exhaustive set of questions and answers dwelling on all the significant issues. This essential learning helps us understand our spiritual heritage as a species and the place of India among the greatest civilizations of the

World Religions-Jeffrey Brodd 2009-01-01 The Subcommittee on the Catechism (formerly the Ad Hoc Committee to Oversee the Use of the Catechism), has judged that the text falls outside the scope of the types of materials they review for conformity to the Catechism.* The third edition of this highly acclaimed text continues to help young people unlock the doors to 11 of the world's major religious traditions. Updated references highlighting recent events in the history of the traditions, 50 new images, and revised chapter on Sikhism help eleventh and twelfth graders understand the people, dimensions, and religious principles of the world's major religions. *The Subcommittee on the Catechism reviews only materials which are catechetical in nature and which teach the beliefs, practices, and doctrine of the Catholic Faith. World Religions falls outside the scope of the types of materials the Committee reviews. This text outlines the basic beliefs and practices of the major religions of the world, taking a comparative approach, as do most texts on this topic, to identify the distinctive elements of the various religions.

God Is Not One-Stephen Prothero 2010-09-20 fascinating guide to religion and its place in the world today. In God Is Not One, bestselling author Stephen Prothero makes a fresh and provocative argument that, contrary to popular understanding, all religions are not simply "different paths to the same God." Instead, he shows that the differences between the major religions are far greater than we think: they each ask different questions, tackle different problems, and aim at different goals. God Is Not One highlights the unique aspects of the world's major religions, with chapters on Islam, Christianity, Confucianism, Hinduism, Buddhism, Yoruba religion, Judaism, Daoism and atheism. Lucid and compelling, God Is Not One offers a new understanding of religion for the twenty-first century.

Introducing World Religions-the EBook-Victoria Urubshurow 2008-06

Defining Hinduism-J. E. Llewellyn 2017-07-28 'Defining Hinduism' focuses on what Hinduism is, what it has been, and what some have argued it should be. The oldest of the world religions, Hinduism presents a complex pantheon and system of beliefs. Far from being unchanging, Hinduism has, like any faith of duration, evolved in response to changing cultural, political and ideological demands. The book brings together some of the leading scholars working on South Asian religions today.

Authority and Meaning in Indian Religions-Julia Leslie 2017-11-22 This title was first published in 2003. Can a text be used either to validate or to invalidate contemporary understandings? Texts may be deemed 'sacred',

but sacred to whom? Do conflicting understandings matter? Is it appropriate to try to offer a resolution? For Hindus and non-Hindus, in India and beyond, Valmiki is the poet-saint who composed the epic Rāmāyaṇa. Yet for a vocal community of dalits (once called 'untouchables'), within and outside India, Valmiki is God. How then does one explain the popular story that he started out as an ignorant and violent bandit, attacking and killing travellers for material gain? And what happens when these two accounts, Valmiki as God and Valmiki as villain, are held simultaneously by two different religious groups, both contemporary, and both vocal? This situation came to a head with controversial demonstrations by the Valmiki community in Britain in 2000, giving rise to some searching questions which Julia Leslie now seeks to address.

Feminism and World Religions-Arvind Sharma Addressing religion and feminism on a global scale, this unprecedented book contains a nuanced and fine-tuned treatment of seven of the world's religions from a feminist perspective by leading women scholars. *Feminism and World Religions* contains chapters on Hinduism by Vasudha Narayanan, Buddhism by Rita M. Gross, Confucianism by Terry Woo, Taoism by Karen McLaughlin and Eva Wong, Judaism by Ellen M. Umansky, Christianity by Rosemary Radford Ruether, and Islam by Riffat Hassan, along with a general introduction and a postscript by Katherine K. Young and a preface by Arvind Sharma. The fact that these authors share a dual but undivided commitment both to themselves as women and to their traditions as adherents imparts to their voices a prophetic quality, and if Mahatma Gandhi is to be believed, even scriptural value.

World Religions-Thomas A. Robinson 2014-11-11 This masterful survey of world religions presents a clear and concise portrait of the history, beliefs, and practices of Eastern and Western religions. The new edition contains added material and has been revised throughout. The authors, both respected scholars of world religions, have over fifty years of combined teaching experience. Pedagogical aids include further reading suggestions, photographs, sidebars, and pronunciation guides. An 800-question bank of multiple-choice test questions is available to professors through Baker Academic's Textbook eSources.

The Rigveda- 2014-05-07 The Rigveda is the oldest Sanskrit text, consisting of over one thousand hymns dedicated to various divinities of the Vedic tradition. Orally composed and orally transmitted for several millennia, the hymns

display remarkable poetic complexity and religious sophistication. As the culmination of the long tradition of Indo-Iranian oral-formulaic praise poetry and the first monument of specifically Indian religiosity and literature, the Rigveda is crucial to the understanding both of Indo-European and Indo-Iranian intellectual and aesthetic prehistory and of the rich flowering of Indic religious expression and Indic high literature that were to follow. This new translation represents the first complete scholarly translation into English in over a century and utilizes the results of the intense research of the last century on the language and the ritual system of the text. The focus of this translation is on the poetic techniques and structures utilized by the bards and on the ways that the poetry intersects with and dynamically expresses the ritual underpinnings of the text.

Understanding World Religions-David Whitten Smith 2014-08-21 Understanding World Religions introduces students to major worldviews—including Hindu, Buddhist, Muslim, Jewish, Christian, Native American, and Marxist—through the lens of justice and peace. The second edition has been updated and revised throughout. After an introduction to key themes in studying world religion, chapters help students explore major traditions today. Each chapter takes a similar approach, examining several dimensions of each tradition—experiential and emotional, social and institutional, narrative or mythic, doctrinal and philosophical, practical and ritual, and ethical and legal. Chapters feature profiles of major peacemakers or groups to bring the traditions to life. Profiles range from Gandhi and Martin Luther King to Thich Nhat Hanh and Dorothy Day. Further chapters explore liberation theologies, active nonviolence, and just war theory. The second edition features a broader framework than the first edition and includes

new material on non-religious ethical norms, Islamophobia, colonial evangelization, religion in China, and an updated examination of the Israel-Palestine conflict.
